Title 3—THE PRESIDENT

Executive Order 11435

DESIGNATING THE SECRETARY OF THE INTERIOR TO ACCEPT ON BEHALF OF THE UNITED STATES RETROCESSION BY ANY STATE OF CERTAIN CRIMINAL AND CIVIL JURISDICTION OVER INDIAN COUNTRY

By virtue of the authority vested in me by section 465 of the Revised Statutes (25 U.S.C. 9) and as President of the United States, the Secretary of the Interior is hereby designated and empowered to exercise, without the approval, ratification, or other action of the President or of any other officer of the United States, any and all authority conferred upon the United States by section 403(a) of the Act of April 11, 1968, 82 Stat. 79 (25 U.S.C. 1323(a)): *Provided*, That acceptance of retrocession of all or any measure of civil or criminal jurisdiction, or both, by the Secretary hereunder shall be effected by publication in the FEDERAL REGISTER of a notice which shall specify the jurisdiction retroceded and the effective date of the retrocession: *Provided further*, That acceptance of such retrocession of criminal jurisdiction shall be effected only after consultation by the Secretary with the Attorney General.

Title 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

[Amdt. 1]

PART 16—MILK INDEMNITY PAYMENT PROGRAM

Subpart—Regulations Governing Milk Indemnity Payments

DEFINITIONS; APPLICATION FOR PAYMENT

The regulations issued by the Department of Agriculture which set forth the terms and conditions under which indemnity payments will be made to eligible dairy farmers whose milk is removed from the market because of pesticide residue content, (33 F.R. 2497) are amended as follows to extend the effective date of the indemnity payment program:

1. Paragraphs (f), (h), and (j) of § 16.2 *Definitions*, are amended to read as follows:

§ 16.2 Definitions.

(f) "Pesticide" means an economic poison which was registered with the Secretary pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (7 U.S.C. 135-135k), and recommended for use in Agriculture Handbook No. 313 or 331 "Suggested Guide for the Use of Insecticides to Control Insects Affecting Crops, Livestock, Households, Stored Products, and Forest Products", or any revision of such handbooks published by the Agricultural Research Service, U.S. Department of Agriculture.

(h) "Affected farmer" means a person who produces whole milk or butterfat which is removed from the commercial market any time from January 1, 1964, to June 30, 1970, pursuant to direction of a public agency or a milk handler because of detection of pesticide residue in such whole milk or butterfat by tests made by a public agency or under a testing program deemed adequate for the purpose by a public agency.

(j) "Application period" means any period with respect to which application for payment is made, beginning not earlier than January 1, 1964, and ending not later than June 30, 1970, and during which an affected farmer's whole milk or butterfat is removed from the commercial market pursuant to direction of a public agency or milk handler for the reason specified in paragraph (h) of this section.

2. Section 16.8 *Application for payment*, is amended to read as follows:

§ 16.8 Application for payment.

The affected farmer or his legal representative, as provided in §§ 16.12 and 16.16, must sign and file an application for payment on a form which is approved for the purpose by the Deputy Administrator and which is available at the County ASCS Office. The form must be filed with the County ASCS Office for the county where the farm headquarters are located no later than August 31, 1970, or such later date as the Deputy Administrator may specify. The application for payment shall cover application periods of at least 28 days, except that, if the entire application period, or the last application period, is shorter than 28 days, applications for payment may be filed for such shorter period. The application for payment shall be accompanied by the information required by § 16.6 as well as information which will enable the county committee to determine whether or not the making of an indemnity payment is precluded for any of the reasons set forth in § 16.7. Such information shall be submitted on such forms as may be approved for the purpose by the Deputy Administrator.

(Secs. 1-3, 82 Stat. 750)

Effective date: Date of publication.

Signed at Washington, D.C., on November 18, 1968.

H. D. GODFREY,
Administrator, Agriculture Sta-
bilization and Conservation
Service.

Nonliability of the Department.

AUTHORITY: The provisions of this subpart issued under secs. 8, 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended, 30 F.R. 5799, as amended.

QUARANTINE AND REGULATIONS

§ 301.45 Quarantine; restriction on interstate movement of specified regulated articles.

(a) *Notice of Quarantine.* Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), the Secretary of Agriculture has determined, after public hearing, that it is necessary to quarantine the States of Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont, in order to prevent the spread of the gypsy moth (*Porthetria dispar* L.), and the States of Maine, Massachusetts, and New Hampshire in order to prevent the spread of infestations of the brown-tail moth (*Nygmia phaeorrhoea* Donovan), dangerous insects injurious to forest and shade trees, not heretofore widely prevalent or distributed within and throughout the United States. Under the authority of said provisions, the Secretary hereby quarantines the State of Pennsylvania in order to prevent the spread of the gypsy moth and continues to quarantine the other specified States as aforesaid with respect to the interstate movement from the quarantined States of the articles described in paragraph (b) of this section, issues the regulations in this subpart governing such movement, and gives notice of said quarantine and regulations.

(b) *Quarantine restrictions on interstate movement of specified regulated articles.* No common carrier or other person shall move interstate from any quarantined State any of the following

articles (defined in § 301.45-1(n) as regulated articles), except in accordance with the conditions prescribed in this subpart:

(1) Gypsy moth regulated articles:
(i) Trees, shrubs with persistent woody stems, and parts of such trees and shrubs, except seeds, fruits and cones.

(ii) Timber and timber products, including but not limited to lumber, planks, poles, logs, cordwood and pulpwood.

(iii) Stone and quarry products.
(2) Brown-tail moth regulated articles:
(i) Deciduous trees, and shrubs with persistent woody stems, and parts of such trees and shrubs, with leaves attached.

(3) Any other products, articles or means of conveyance, of any character whatsoever, not covered by subparagraphs (1) and (2) of this paragraph, when it is determined by an inspector that they present a hazard of spread of the gypsy moth or brown-tail moth and the person in possession thereof has been so notified.

§ 301.45-1 Definitions.

Terms used in the singular form in this subpart shall be deemed to import the plural, and vice versa, as the case may demand. The following terms, when used in this subpart, shall be construed, respectively to mean:

(a) *Brown-tail moth*. The live insect known as the brown-tail moth (*Nygmia phaeorrhoea* Donovan), in any stage of development.

(b) *Certificate*. A document issued or authorized to be issued under this subpart by an inspector to allow the interstate movement of regulated articles to any destination.

(c) *Compliance agreement*. A written agreement between a person engaged in growing, handling, or moving regulated articles, and the Plant Pest Control Division, wherein the former agrees to comply with the requirements of this subpart identified in the agreement by the inspector who executes the agreement on behalf of the Division as applicable to the operations of such person.

(d) *Director*. The Director of the Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, or any other officer or employee of said Service to whom authority to act in his stead has been or may hereafter be delegated.

(e) *Generally infested area*. Any part of a regulated area not designated as a suppressive area in accordance with § 301.45-2(a).

(f) *Gypsy moth*. The live insect known as the gypsy moth (*Porthetria dispar* L.), in any stage of development.

(g) *Infestation*. With respect to the gypsy moth, the presence of the gypsy moth or the existence of circumstances that make it reasonable to believe that gypsy moth is present; with respect to the brown-tail moth, the presence of the brown-tail moth or the existence of circumstances that make it reasonable

to believe that brown tail moth is present.

(h) *Inspector*. Any employee of the Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, or other person, authorized by the Director to enforce the provisions of the quarantine and regulations in this subpart.

(i) *Interstate*. From any State, territory, or district into or through any other State, territory, or district of the United States (including Puerto Rico).

(j) *Limited permit*. A document issued or authorized to be issued by an inspector to allow the interstate movement of noncertifiable regulated articles to a specified destination for limited handling, utilization, or processing or for treatment.

(k) *Moved (movement, move)*. Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved or allowed to be moved by any means. "Movement" and "move" shall be construed accordingly.

(l) *Person*. Any individual, corporation, company, society or association, or other organized group of any of the foregoing.

(m) *Regulated area*. Any quarantined State, or any portion thereof, listed as a regulated area in § 301.45-2a or otherwise designated in accordance with § 301.45-2(a).

(n) *Regulated articles*. Any articles described in § 301.45(b).

(o) *Restricted destination permit*. A document issued or authorized to be issued by an inspector to allow the interstate movement of regulated articles not certifiable under all applicable Federal domestic plant quarantines to a specified destination for other than scientific purposes.

(p) *Scientific permit*. A document issued by the Director to allow the interstate movement to a specified destination of regulated articles for scientific purposes.

(q) *Suppressive area*. That part of a regulated area where eradication of infestation is undertaken as an objective, as designated by the Director under § 301.45-2(a).

(r) *Treatment manual*. The provisions currently contained in the "Manual of Administratively Authorized Procedures to be Used Under the Gypsy Moth and Brown-Tail Moth Quarantine" and the "Fumigation Procedures Manual" and any amendments thereto.¹

§ 301.45-2 Authorization to designate regulated areas and suppressive or generally infested areas, and articles which are exempt from certification, permit, or other requirements.

The Director shall publish and amend from time to time as the facts warrant, the following lists:

¹ Pamphlets containing such provisions are available, upon request, from the Director, Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Hyattsville, Md. 20782, or from an inspector.

(a) *List of regulated areas and suppressive or generally infested areas*. The Director shall list as regulated areas in a supplemental regulation designated as § 301.45-2a, the quarantined States or portions thereof in which gypsy moth or brown-tail moth has been found or in which there is reason to believe that gypsy moth or brown-tail moth is present, or which it is deemed necessary to regulate because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities. The Director, in the supplemental regulation, may divide any regulated area into a suppressive area and a generally infested area in accordance with the definitions thereof in § 301.45-1. Less than an entire quarantined State will be designated as a regulated area only if the Director is of the opinion that:

(1) The State has adopted and is enforcing a quarantine or regulation which imposes restrictions on the intrastate movement of regulated articles which are substantially the same as those which are imposed with respect to the interstate movement of such articles under this subpart; and

(2) The designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the gypsy moth and brown-tail moth.

The Director or an authorized inspector, may temporarily designate any other premises in a quarantined State as a regulated area and a suppressive or generally infested area, in accordance with the criteria specified above for listing such areas, by serving written notice thereof on the owner or person in possession of such premises, and thereafter the interstate movement of regulated articles from such premises by any person having notice of this designation shall be subject to the applicable provisions of this subpart. As soon as practicable, such premises shall be added to the list in § 301.45-2a if a basis then exists for their designation.

(b) *List of articles which are exempt from certification, permit or other requirements*. The Director may, in a supplemental regulation designated as § 301.45-2b, list regulated articles which shall be exempt from the certification, permit, or other requirements of this subpart under such conditions as he may prescribe, if he finds that facts exist as to the pest risk involved in the movement of such regulated articles which make it safe to so relieve such requirements.

§ 301.45-3 Conditions governing the interstate movement of regulated articles from quarantined States.²

Any regulated articles may be moved interstate from any quarantined State under the following conditions:

(a) From any gypsy moth or brown-tail moth regulated area, with certificate

² Requirements under all other applicable Federal domestic plant quarantines must also be met.

or permit issued and attached in accordance with §§ 301.45-4 and 301.45-7 if moved:

(1) From any gypsy moth or brown-tail moth regulated area into or through any point outside of the regulated areas; or

(2) From any gypsy moth or brown-tail moth generally infested area into or through any gypsy moth or brown-tail moth suppressive area; or

(3) From any gypsy moth or brown-tail moth suppressive area into or through any noncontiguous gypsy moth or brown-tail moth suppressive area; or from any gypsy moth suppressive area into or through any contiguous brown-tail moth suppressive area; or from any brown-tail moth suppressive area into or through any contiguous gypsy moth suppressive area; or

(4) Between contiguous gypsy moth suppressive areas or between contiguous brown-tail moth suppressive areas when it is determined by the inspector that the regulated articles present a hazard of the spread of the gypsy moth or brown-tail moth and the person in possession thereof has been so notified; or

(b) From any regulated area, without certificate or permit if moved:

(1) Under the provisions of § 301.45-2b which exempts certain articles from certificate and permit requirements; or

(2) From a gypsy moth generally infested area to a contiguous gypsy moth generally infested area; or

(3) From a brown-tail moth generally infested area to a contiguous brown-tail moth generally infested area; or

(4) From a gypsy moth suppressive area to a contiguous gypsy moth generally infested area; or

(5) From a brown-tail moth suppressive area to a contiguous brown-tail moth generally infested area; or

(6) Between contiguous gypsy moth suppressive areas or between contiguous brown-tail moth suppressive areas unless the person in possession of the articles has been notified by an inspector that a hazard of spread of the gypsy moth or brown-tail moth, respectively, exists; or

(7) Through or reshipped from any regulated area if the articles originated outside of any regulated area and if the point of origin of the articles is clearly indicated, their identity has been maintained and they have been safeguarded against infestation while in the regulated area in a manner satisfactory to the inspector; or

(c) From any area outside the regulated areas, without a certificate or permit if the regulated articles are exempt under the provisions of § 301.45-2b or if the point of origin of such movement is clearly indicated on the articles or shipping document which accompanies the articles and if the movement is not made through any regulated area.

§ 301.45-4 Issuance and cancellation of certificates and permits.

(a) Certificates may be issued for any regulated articles by an inspector if he determines that they are eligible for certification for movement to any destination

under all Federal domestic plant quarantines applicable to such articles and:

(1) Have originated in noninfested premises in a regulated area and have not been exposed to infestation while within the regulated areas; or

(2) Upon examination, have been found to be free of infestation; or

(3) Have been treated to destroy infestation in accordance with the treatment manual; or

(4) Have been grown, produced, manufactured, stored, or handled in such a manner that no infestation would be transmitted thereby.

(b) Limited permits may be issued by an inspector to allow interstate movement of regulated articles, not eligible for certification under this subpart, to specified destinations for limited handling, utilization, or processing, or for treatment in accordance with the treatment manual, when upon evaluation of the circumstances involved in each specific case he determines that such movement will not result in the spread of the gypsy moth or brown-tail moth and requirements of other applicable Federal domestic plant quarantines have been met.

(c) Restricted destination permits may be issued by an inspector to allow the interstate movement (for other than scientific purposes) of regulated articles to any destination permitted under all applicable Federal domestic plant quarantines if such articles are not eligible for certification under all such quarantines but would otherwise qualify for certification under this subpart.

(d) Scientific permits may be issued by the Director to allow the interstate movement of regulated articles for scientific purposes under such conditions as may be prescribed in each specific case by the Director.

(e) Certificate, limited permit and restricted destination permit forms may be issued by an inspector to any person for use by the latter for subsequent shipments provided such person is operating under a compliance agreement; and any such person may be authorized by an inspector to reproduce such forms on shipping containers or otherwise. Any such person may use the certificate forms, or reproductions of such forms, for the interstate movement of regulated articles from the premises of such person identified in the compliance agreement if such person has made appropriate determinations as specified in paragraph (a) of this section with respect to such articles. Any such person may use the limited permit forms, or reproductions of such forms, for interstate movement of regulated articles to specified destinations authorized by the inspector in accordance with paragraph (b) of this section. Any such person may use the restricted destination permit forms, or reproductions of such forms, for the interstate movement of regulated articles not eligible for certification under all Federal domestic plant quarantines applicable to such articles, under the conditions specified in paragraph (c) of this section.

(f) Any certificate or permit which has been issued or authorized may be withdrawn by the inspector if he determines that the holder thereof has not complied with any condition for the use of such document imposed by this subpart.

§ 301.45-5 Compliance agreements; and cancellation thereof.

(a) Any person engaged in the business of growing, handling, or moving regulated articles may enter into a compliance agreement to facilitate the movement of such articles under this subpart. Compliance agreement forms may be obtained from the Director or an inspector.

(b) Any compliance agreement may be canceled by the inspector who is supervising its enforcement whenever he finds, after notice and reasonable opportunity to present views has been accorded to the other party thereto, that such other party has failed to comply with the conditions of the agreement.

§ 301.45-6 Assembly and inspection of regulated articles.

Persons (other than those authorized to use certificates, limited permits, or restricted destination permits, or reproductions thereof, under § 301.45-4(e)) who desire to move interstate regulated articles which must be accompanied by a certificate or permit shall, as far in advance as possible, request an inspector to examine the articles prior to movement. Such articles shall be assembled at such points and in such a manner as the inspector designates to facilitate inspection.

§ 301.45-7 Attachment and disposition of certificates or permits.

(a) If a certificate or permit is required for the interstate movement of regulated articles, the certificate or permit shall be securely attached to the outside of the container in which such articles are moved, except that, where the certificate or permit is attached to the waybill or other shipping document, and the regulated articles are adequately described on the certificate, permit, or shipping document, the attachment of the certificate or permit to each container of the articles is not required.

(b) In all cases, certificates, or permits shall be furnished by the carrier to the consignee at the destination of the shipment.

§ 301.45-8 Inspection and disposal of regulated articles and pests.

Any properly identified inspector is authorized to stop and inspect, and to seize, destroy, or otherwise dispose of, or require disposal of regulated articles, gypsy moths and brown-tail moths as provided in section 10 of the Plant Quarantine Act (7 U.S.C. 164a) and section 105 of the Plant Pest Act (7 U.S.C. 150dd), in accordance with instructions issued by the Director.

§ 301.45-9 Movement of live gypsy moths and brown-tail moths.

Regulations requiring a permit for, and otherwise governing the movement of

live gypsy moths and brown-tail moths in interstate or foreign commerce are contained in the Federal Plant Pest regulations in Part 330 of this chapter. Applications for permits for the movement of the pests may be made to the Director.

§ 301.45-10 Nonliability of the Department.

The U.S. Department of Agriculture disclaims liability for any costs incident to inspections or compliance with the provisions of the quarantine and regulations in this subpart, other than for the services of the inspector.

This revision shall become effective upon publication in the FEDERAL REGISTER when it shall supersede the notice of quarantine and regulations effective July 16, 1965.

Pursuant to a notice of hearing and rule-making published in the FEDERAL REGISTER on March 23, 1968 (33 F.R. 4927), a public hearing was held in Chicago, Ill., on April 16, 1968, regarding quarantining Pennsylvania on account of the gypsy moth. After due consideration of all relevant matters presented at the hearing and in response to the notice it has been decided to add Pennsylvania to the list of States quarantined because of gypsy moth.

In addition, this revision simplifies and clarifies the gypsy moth and brown-tail moth quarantine and regulations. The only substantive changes made are as follows:

Provision is made for the Director or an inspector temporarily to designate any premises in a quarantined State as a regulated area by serving written notice thereof on the owner or person in possession of such premises. A requirement is added for persons moving regulated articles from portions of quarantined States not included within the "regulated areas" to provide proof of origin in connection with such shipments. Provisions are also added under which certificates will not be issued or authorized to be issued for regulated articles unless the articles are certifiable under all applicable Federal domestic plant quarantine requirements, restricted destination permits are authorized, and all certificates or permits are required to be surrendered to the consignee at the destination of the shipments.

To the extent that this revision relieves certain restrictions presently imposed, it should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions which are being relieved. To the extent that this revision imposes restrictions that are necessary in order to prevent the dissemination of the gypsy moth and brown-tail moth it should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to this revision are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30

days after publication in the FEDERAL REGISTER.

Done at Washington, D.C. this 19th day of November 1968.

(Secs. 8, 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended, 7 CFR 301.45-2)

This regulation shall become effective upon publication in the FEDERAL REGISTER when it shall supersede the administrative instructions contained in 7 CFR 301.45-2a (P.P.C. 617, 4th revision) effective August 5, 1966.

The Director of the Plant Pest Control Division has determined that infestations of the gypsy moth exist or are likely to exist in the civil divisions or parts of civil divisions listed as regulated areas in paragraph (a), or that it is necessary to regulate such areas because of their proximity to gypsy moth infestations or their inseparability for quarantine enforcement purposes from gypsy moth infested localities. Such Director has also determined that infestations of the brown-tail moth exist or are likely to exist in the counties of the quarantined States listed in paragraph (b), or that it is necessary to regulate such counties because of their proximity to brown-tail moth infestation or their inseparability for quarantine enforcement purposes from brown-tail moth infested localities. The Director has further determined that each of the quarantined States, wherein less than the entire State is designated

as a regulated area, is enforcing a quarantine or regulation with restrictions on intrastate movement of the regulated articles substantially the same as the restrictions on interstate movement of such articles imposed by the quarantine and regulations in this subpart, and that designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the gypsy moth and brown-tail moth. Accordingly, such civil divisions and parts of civil divisions listed above in paragraph (a) are designated as gypsy moth regulated areas, and those listed above in paragraph (b) are designated as brown-tail moth regulated areas.

This revision adds to the generally infested gypsy moth regulated areas the following previously nonregulated localities: In New York—the entire counties of Bronx, Kings, New York, Queens, and Richmond; New Jersey—all or parts of the following counties: Hudson, Hunterdon, Mercer, and Warren Counties. It also extends the previously regulated areas in New Jersey and New York. In the newly quarantined State of Pennsylvania, portions of Berks, Bucks, Carbon, Northampton, and Schuylkill Counties and the entire counties of Monroe, Pike, and Wayne have been added as generally infested gypsy moth regulated areas. This revision makes no change in paragraph (b) of § 301.45-2a of the regulations designating brown-tail moth regulated areas.

This document imposes restrictions that are necessary in order to prevent the dissemination of the gypsy moth and the brown-tail moth, and should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing regulation are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Gypsy Moth and Brown-Tail Moth

EXEMPTIONS

Under authority of § 301.45-2 of the Gypsy Moth and Brown-Tail Moth Quarantine regulations (7 CFR 301.45-2, as amended, 33 F.R. 17342), a supplemental regulation exempting certain articles from specified requirements of the regulations is hereby issued to appear in 7 CFR 301.45-2b as set forth below. The Director of the Plant Pest Control Division has found that facts exist as to

the pest risk involved in the movement of such articles which make it safe to relieve the requirements as provided therein.

§ 301.45-2b Exempted articles.

The following regulated articles are exempt¹ from the certification and permit requirements of this subpart if they meet the applicable conditions prescribed in subparagraphs (1) through (8) of this paragraph and have not been exposed to infestation after cleaning or other handling as prescribed in said subparagraphs:

(1) Trees and shrubs, and parts of such trees and shrubs, if grown in a greenhouse throughout the year and so labeled on the outside of each container.

(2) Boughs, cuttings, and scions, with stems no greater than one-half inch in diameter.

(3) Parts of trees and shrubs that have been dried, pressed, waxed, lacquered, varnished, or similarly surface treated.

(4) Lumber, if dressed or sawed four sides with ends clipped and free of surface bark; or if kiln dried: *Provided*, That such lumber is shipped directly after processing and the waybill or other shipping document is marked to show that the lumber was shipped immediately after processing.

(5) Wood products which have been manufactured, such as shingles, flooring, furniture, handles, etc.

(6) Shavings, sawdust, wood flour, excelsior and cedar bedding, if not exposed to infestation in storage.

(7) Stone and quarry products, if processed by grinding or pulverizing.

(8) Stone and quarry products, if handled in accordance with a compliance agreement and shipped directly from establishments approved by the Director.²

(Secs. 8, 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 7 CFR 301.45-2)

This list of exempted articles shall become effective upon publication in the FEDERAL REGISTER when it shall supersede the list of exempted articles in 7 CFR 301.45a (P.P.C. 386, 3d Revision), which became effective July 16, 1965.

The principal purpose of this document is to add to the list of articles certain wood products which are considered safe to exempt from the specified requirements of the regulations. The document also makes nonsubstantive changes in the listing of previously exempted articles.

This document relieves certain restrictions which are not deemed necessary to

¹ The articles hereby exempted remain subject to applicable restrictions under other quarantines.

² Any establishment is eligible for approval by the Director for purposes of this paragraph if it is operated under a compliance agreement as defined in § 301.45-1(c). A notice listing approved establishments will be published periodically in the FEDERAL REGISTER. Copies of the current list may also be obtained from the Director, Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Hyattsville, Md. 20782, or from an inspector.

prevent the interstate spread of the gypsy moth or brown-tail moth and should be made effective promptly in order to be of maximum benefit to persons subject to such restrictions. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this document are impracticable and unnecessary and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 5]

PART 722—COTTON

Subpart—Acreage Allotments for 1968 and Succeeding Crops of Upland Cotton

MISCELLANEOUS AMENDMENTS

Basic and purpose. This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.). The regulations for Acreage Allotments for 1968 and Succeeding Crops of Upland Cotton (33 F.R. 895, 4451, 5533, 6705, and 7564) are amended as follows:

(1) Section 722.408(a) is revised to include a provision that the computed county allotment shall not exceed 110 percent of the county's total of farm preliminary allotments and that acreage regained shall be apportioned to the other counties on the basis of subsequent factors.

(2) Section 722.408(d) is revised to provide that the county reserve shall not exceed 5 percent of the county allotment unless a larger reserve not to exceed 15 percent of the county allotment is approved by the State committee.

(3) Section 722.411(b)(5) is revised to include an exception to the 50 percent of income requirement for new farm applicants with low income.

(4) An exception to the limitation on allocation of released acreage is added to § 722.412(b)(4).

A notice of proposed rule making was published in the FEDERAL REGISTER of July 30, 1968 (33 F.R. 10804) covering the changes in items (1) and (2). Due consideration was given to the views and comments received in response to this notice.

Since the State and county committees and farmers need to know the provisions of this amendment as soon as possible in connection with plans for the allocation

of the 1969 crop and the establishment of allotments for such crop, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure, and 30-day effective date requirements of 5 U.S.C. 553, is impracticable and contrary to the public interest and this amendment shall be effective upon filing this document with the Director, Office of the Federal Register.

The Subpart—Acreage Allotments for 1968 and Succeeding Crops of Upland Cotton of Part 722, Subchapter B of Chapter VII, Title 7 (33 F.R. 895, as amended), is amended as follows:

1. Paragraphs (a) and (d) of § 722.408 are amended to read as follows:

§ 722.408 Apportionment of State allotment and State's share of national reserve among counties and establishment of county reserve.

(a) *Apportionment of State allotment.* The State allotment less (1) the allotment attributable to history pooled as a result of productivity adjustments under § 722.429(c), and (2) the State reserve for the current year, shall be apportioned among counties on the basis of the average acreage planted to cotton in each county in the 5 base years with adjustments in such acreage for failure to seed cotton because of abnormal weather conditions. Such adjustments shall be made in the manner provided in § 722.405(a). Notwithstanding the foregoing, no county shall receive a computed county allotment in excess of 110 percent of the county total of farm preliminary allotments. Acreage regained due to this limitation shall be apportioned to the remaining counties in the State on the basis of subsequent factors as required. The acreage apportioned under this paragraph shall be the computed county allotment.

(d) *County reserve.* The county committee shall establish a county reserve not in excess of 5 percent of the sum of the computed county allotment and allocations to the county from the State reserve for trends and for abnormal conditions unless the State committee approves a larger reserve not in excess of 15 percent of the sum of the computed county allotment and allocations to the county from the State reserve for trends and abnormal conditions.

2. Paragraph (b)(5) of § 722.411 is revised by adding at the end thereof the following:

§ 722.411 Allotments for new cotton farms.

(b) * * *

(5) * * * Such 50 percent of income requirement shall be applicable unless the county committee, with the approval of a representative of the State committee, determines that the income of the applicant, from the farm or otherwise, will not provide a reasonable standard of living for the applicant and his family. In making such determination, the

county committee shall consider such factors as size and type of farming operations, estimated net worth, estimated gross family farm income, estimated family off-farm income, number of dependents, and other factors affecting the applicant's ability to provide a reasonable standard of living for himself and his family.

3. Paragraph (b) (4) of § 722.412 as amended by adding at the end thereof a new subdivision (iv).

§ 722.412 Release and reapportionment of cotton allotments.

(b) * * *

(4) *Standards and guidelines for reapportionment.* * * *

(iv) The limitation in subdivision (ii) of this subparagraph may be exceeded up to the limits in subdivision (i) of this subparagraph if all applicants for reapportioned acreage, other than those for farms owned, operated, or controlled by members of the community committee, county committee, or employees of the county committee, have received the requested amount of reapportioned acreage up to the limits of subdivision (i) of this subparagraph and additional released allotment is available for reapportionment.

PART 722—COTTON

Subpart—1969 Crop of Extra Long Staple Cotton; Acreage Allotments and Marketing Quotas

STATE RESERVES AND COUNTY ALLOTMENTS

Section 722.555 is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.). This section establishes the State reserves and allocation thereof among uses for the 1969 crop of extra long staple cotton. It also establishes the county allotments. Such determinations were made initially by the respective State committees and are hereby approved and made effective by

the Administrator, ASCS, pursuant to delegated authority (29 F.R. 16210, 33 F.R. 542, 4275).

Notice that the Secretary was preparing to establish State and county allotments was published in the *FEDERAL REGISTER* on September 25, 1968 (33 F.R. 14414) in accordance with 5 U.S.C. 553. No written submissions relative to the establishment of State reserves and county allotments were received in response to such notice.

Since the allocations under this section require immediate action by the Agricultural Stabilization and Conservation State and county committees, it is essential that § 722.555 be made effective as soon as possible. Accordingly, it is hereby found and determined that compliance with the 30-day effective date requirement of 5 U.S.C. 553 is impracticable and contrary to the public interest, and § 722.555 shall be effective upon filing this document with the Director, Office of the Federal Register.

§ 722.555 State reserves and county allotments for the 1969 crop of extra long staple cotton.

(a) *State reserves.* The State reserve for each State shall be established and allocated among uses as shown in the following table for the 1969 crop of extra long staple cotton pursuant to § 722.508 of the Regulations for Acreage Allotments for 1966 and Succeeding Crops of Extra Long Staple Cotton (31 F.R. 6247, as amended). It is hereby determined that no State reserve for trends, abnormal conditions or small farms is required. A State reserve for correcting inequities and preventing hardships is required for applicable counties in New Mexico. A State reserve for new farms is required in Arizona. The new farm reserve is included with the State reserve for set-aside for correction of errors.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Orange Reg. 61, Amdt. 1]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Murcott Honey oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 25, 1968. Domestic shipments of Florida oranges, except Temple and Murcott Honey oranges, are currently regulated pursuant to Orange Regulation 61 (33 F.R. 14067) and determinations as to the need for, and extent of, regulation of domestic shipments of Murcott Honey oranges must await the development of the crop and the availability of information on the demand for such fruit; the recommendations and supporting information for regulation of such orange shipments subsequent to November 25, 1968, and in the manner herein provided, were promptly submitted to the Department after an assembled meeting of the Growers Administrative Committee on November 19, 1968, held to consider recommendations for regulation; the provisions of this amendment are identical with the aforesaid recommendations of the committee, and information concerning such provisions has been disseminated among handlers of such oranges;

it is necessary, in order to effectuate the declared policy of the act, to make this amendment effective as hereinafter set forth to cover movement which is expected to begin on or about such time; and compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. The provisions of subparagraph (a) (2) in § 905.507 (Orange Regulation 61, 33 F.R. 14067) are hereby amended in the following respects:

1. The existing provisions of paragraph (a) (2) are amended and subdivision (iii) is added to read as follows:

§ 905.507 Orange Regulation 61.

(a) *Order.* * * *

(2) During the period November 25, 1968, through September 14, 1969, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, except Temple oranges, grown in the production area, which do not grade at least U.S. No. 1;

(ii) Any oranges, except Temple and Murcott Honey oranges, grown in the production area, which are of a size smaller than $2\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the U.S. Standards for Florida Oranges and Tangelos: *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2\frac{1}{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2\frac{1}{16}$ inches in diameter or smaller; or

(iii) Any Murcott Honey oranges, grown in the production area, which are of a size smaller than $2\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of Murcott Honey oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the said U.S. Standards for Florida Oranges and Tangelos.

[Lemon Reg. 349]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.649 Lemon Regulation 349.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on November 19, 1968.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period November 24, 1968, through November 30, 1968, are hereby fixed as follows:

(i) District 1: 7,440 cartons;
(ii) District 2: 35,340 cartons;
(iii) District 3: 110,670 cartons.
(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-352; Order 374]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Area Rate Levels for Natural Gas Sales by Independent Producers

NOVEMBER 18, 1968.

The Commission has under consideration for clarification purposes an amendment of the Second¹ and Seventh² Amendments of its statement of general policy No. 61-1³ in accordance with the Commission's recent determination in *Helmerich & Payne Inc.*⁴ that the Seventh Amendment is inapplicable where no price escalation provisions are proposed to be eliminated from a rate schedule except for the right to present tax reimbursement.

The Second and Seventh Amendments provide that for rate schedules from which all price escalation clauses are being eliminated by contract amendment, except for future changes in tax reimbursement, specified area price levels, which vary from area to area, may be charged and collected. These Amendments also provide for lower area price levels if all price escalation clauses are eliminated, except for future changes in tax reimbursement, and except for escalation clauses providing for future separate increases in rate not in excess of one and one hundredth cents per Mcf one and one hundredth cents per Mcf at 14.73 p.s.i.a. (1 cent at 14.65 p.s.i.a.), the first such escalation not to be effective under the contract prior to dates

prescribed in each amendment.⁵ Each of the amendments provide that the rates permissively obtainable by compliance with the provisions thereof, are inclusive of present tax reimbursement.

It was decided in *Helmerich & Payne Inc.*, supra, that the elimination of the right to present tax reimbursement alone was not sufficient to justify authorization of a Seventh Amendment rate. Since the Second and Seventh Amendments are essentially the same, that ruling is equally applicable to offers of settlement coming under the Second Amendment. We shall, therefore, amend these amendments to make it clear that a proposal to eliminate the right to present tax reimbursement alone does not entitle a producer to a rate authorized under these amendments.

The Commission finds: Amendment of the statement of policy established by this order is necessary and appropriate for administration of the Natural Gas Act, and in view of the fact that the Statement does not prescribe any course of action on the part of any person, and it will not penalize or place any person or class of persons in a disadvantageous position, but merely sets forth the Commission's contemplated course of action, compliance with the notice, public procedure and effective date provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553) is not required.

The Commission, acting pursuant to authority granted by the Natural Gas Act, as amended, particularly sections 4, 5, 7, and 16, thereof (52 Stat. 822, 823, 824, 830; 15 U.S.C. 717c, 717d, 717f, 717o), orders:

(A) Effective upon issuance of this order, paragraphs (b) and (c) of § 2.56, Part 2 Statements of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations are amended by adding a subparagraph (4) to each as follows:

§ 2.56 Area price levels for natural gas sales by independent producers.

(b) *****

(4) Subparagraphs (1) and (2) of this paragraph shall not be applicable to a settlement offer which proposes to eliminate from a rate schedule (contract or agreement) only the right to present tax reimbursement.

(c) *****

(4) Subparagraphs (1) and (2) of this paragraph shall not be applicable to a settlement offer which proposes to eliminate from a rate schedule (contract or agreement) only the right to present tax reimbursement.

(Secs. 4, 5, 16, 52 Stat. 822, 823, 830; 15 U.S.C. 717c, 717d, 717o)

⁵ Order No. 367, Docket No. R-346, issued Sept. 17, 1968.

⁶ All such revised rates are subject, of course, to any findings or orders of the Commission in future proceedings, including area rate or similar proceedings including the subject rate schedules.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

GORDON M. GRANT,
Secretary.

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 68-290]

PART 16—LIQUIDATION OF DUTIES

Countervailing Duties; Sugar Content of Certain Articles From Australia

The Treasury Department is in receipt of official information that the rates of bounties or grants paid or bestowed by the Australian Government within the meaning of section 303, Tariff Act of 1930 (19 U.S.C. 1303), on the exportation during the month of October 1968, of approved fruit products and other approved products containing sugar amounts to Australian \$126.30 per 2,240 pounds of sugar content.

The net amount of bounties or grants on the above-described commodities which are manufactured or produced in Australia is hereby ascertained, determined, and declared to be Australian \$126.30 per 2,240 pounds of sugar content. Additional duties on the above-described commodities, except those commodities covered by T.D. 55716 (27 F.R. 9595), whether imported directly or indirectly from that country, equal to the net amount of the bounty shown above shall be assessed and collected.

The table in § 16.24(f) of the Customs Regulations is amended by inserting after the last line under "Australia—Sugar content of certain articles" the number of this Treasury decision in the column headed "Treasury Decision" and the words "New rate" in the column headed "Action." The table in § 16.24(f) is further amended by deleting therefrom under "Australia—Sugar content of certain articles" the No. 68-215 in the column headed "Treasury Decision" and the words "New rate" appearing opposite such number in the column headed "Action."

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 722—LOCAL TRANSIT INDUSTRY IN PUERTO RICO

PART 726—CONSTRUCTION INDUSTRY IN PUERTO RICO

Wage Rates

Pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 208) and Reorganization Plan No.

6 of 1950 (3 CFR 1949-1953 Comp., p. 1004), and by means of Administrative Order No. 603 (33 F.R. 12103), the Secretary of Labor appointed and convened Industry Committee No. 76-A for the construction industry in Puerto Rico and Industry Committee No. 76-B for the local transit industry in Puerto Rico, referred to each of the committees the question of the minimum wage rate or rates to be paid under section 6(c) of the Act to employees in its industry, and gave notice of a hearing to be held by each of the committees.

Subsequent to an investigation and a hearing conducted pursuant to the notice, each of the committees has filed with the Administrator of the Wage and Hour and Public Contracts Divisions of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and Secretary's Order No. 19-67 (32 F.R. 12980), the recommendations of Industry Committee No. 76-A and of Industry Committee No. 76-B are hereby published in this order amending 29 CFR Parts 722 and 726, effective December 9, 1968, as set forth below.

1. Section 722.2 of 29 CFR Part 722 is revised to read as follows:

§ 722.2 Wage rates.

Wages at the rate of not less than \$1.15 an hour for the period ending January 31, 1969, \$1.30 an hour for the period beginning February 1, 1969, and ending January 31, 1970, and \$1.45 an hour thereafter shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees who in any workweek is engaged in any activity in the local transit industry in Puerto Rico, which was brought within the purview of section 6 of the Act by the Fair Labor Standards Amendments of 1966.

2. Section 726.2 of 29 CFR Part 726 is revised to read as follows:

§ 726.2 Wage rates.

Wages at the rate of not less than \$1.15 an hour for the period ending January 31, 1969, \$1.30 an hour for the period beginning February 1, 1969 and ending January 31, 1970, and \$1.45 an hour thereafter shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees who in any workweek is engaged in any activity in the construction industry in Puerto Rico, which was brought within the purview of section 6 of the Act by the Fair Labor Standards Amendments of 1966.

(Sec. 8, 52 Stat. 1064, as amended; 29 U.S.C. 208)

Signed at Washington, D.C., this 19th day of November 1968.

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1014]

PART 1033—CAR SERVICE

St. Louis Southwestern Railway Co. Authorized To Operate Over Track- age of Missouri-Kansas-Texas Rail- road Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 15th day of November 1968.

It appearing, That because of highway construction the St. Louis Southwestern Railway is unable to operate over a portion of its trackage in East Waco, Tex., thereby preventing access to that portion of its line serving Waco and various stations beyond; that operation over trackage of the Missouri-Kansas-Texas Railroad Co. between its mileposts 843.66 and 844.22, in the vicinity of East Waco, Tex., a distance of approximately 2,900 feet, will provide the St. Louis Southwestern Railway Co. with continued access to its line extending westward from Waco, Tex.; that the Commission is of the opinion that operation of the St. Louis Southwestern Railway Co. over this trackage of the Missouri-Kansas-Texas Railroad Co. is necessary in the interest of the public and the commerce of the people pending final disposition of the application of the St. Louis Southwestern Railway Co. for authority to operate over this trackage; that notice and public procedure herein are impractical and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 1033.1014 Service Order No. 1012.

(a) *St. Louis Southwestern Railway Co. authorized to operate over trackage of the Missouri-Kansas-Texas Railroad Co.* The St. Louis Southwestern Railway Co. be, and it is hereby authorized to operate over trackage of the Missouri-Kansas-Texas Railroad Co. between its mileposts 843.66 and 844.22 in the vicinity of Waco, Tex., a distance of approximately 2,900 feet.

(b) *Application.* The provisions of this section shall apply to intrastate and foreign traffic as well as to interstate traffic.

(c) *Rules and regulations suspended.* The operation of all rules and regulations, insofar as they conflict with the provisions of this section, is hereby suspended.

(d) *Effective date.* This section shall become effective at 12:01 a.m., November 21, 1968.

(e) *Expiration date.* The provisions of this section shall expire at 11:59 p.m., May 31, 1969, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and

17(2). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the FEDERAL REGISTER.

By the Commission, Railroad Service Board.

- 30.47 Transfer of zone-restricted merchandise into customs territory.
- 30.48 Treatment of merchandise not elsewhere provided for in this subpart.

AUTHORITY: The provisions of this Part 30 issued under R.S. 251, secs. 1-21, 48 Stat. 998, 999, as amended, 1000, 1002, as amended, 1003, 77A Stat. 14, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 81a-81u, 1202 (General headnote 11), 1624.

§ 30.0 Scope.

Foreign-trade zones are established under the Foreign-Trade Zones Act and the general regulations and rules of procedure of the Foreign-Trade Zones Board contained in 15 CFR Part 400. This Part 30 of the Customs Regulations governs the admission of merchandise into a foreign-trade zone, manipulation, manufacture, or exhibition in a zone; exportation of merchandise from a zone; and transfer of merchandise from a zone into customs territory.

Subpart A—General Provisions

§ 30.1 Definitions.

The following are general definitions for the purposes of this part:

(a) *Act*. "Act" means the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U.S.C. 81a-81u).

(b) *Board*. "Board" is the Foreign-Trade Zones Board established by the Foreign-Trade Zones Act to carry out the provisions of the Act.

(c) *Customs territory*. "Customs territory" is the territory of the United States in which the general tariff laws of the United States apply but which is not included in any zone. "Customs territory of the United States" includes only the States, the District of Columbia, and Puerto Rico. (General Headnote 2, Tariff Schedules of the United States.)

(d) *Grantee*. "Grantee" is a corporation to which the privilege of establishing, operating, and maintaining a foreign-trade zone has been granted by the Foreign-Trade Zones Board.

(e) *Merchandise*. "Merchandise" includes goods, wares, and chattels of every description, except prohibited articles.

(1) *Domestic merchandise*. "Domestic merchandise" is that which has been (i) produced in the United States and not exported therefrom; or (ii) previously imported into customs territory and properly released from customs custody.

(2) *Foreign merchandise*. "Foreign merchandise" is imported merchandise which has not been properly released

from customs custody in customs territory.

(f) *Zone*. "Zone" is a foreign-trade zone established under the Foreign-Trade Zones Act.

§ 30.2 Designation of District Director as Board Representative.

The district director in whose district the zone is located shall be in local charge of the zone as the resident representative of the Board.

§ 30.3 Assignment of Customs Officers.

The district director in whose district the zone is located shall assign the necessary customs officers and guards to maintain appropriate customs control over merchandise in the zone and to protect the revenue.

§ 30.4 Reimbursement of customs expenses.

The cost of providing the additional customs services required under the Act or the regulations in this part shall be reimbursed to the Government by the grantee, payment to be made monthly to the district director.

§ 30.5 Permission of grantee required.

(a) *Written concurrence necessary*. Applications for permission to transfer merchandise into a zone, to do anything involving merchandise in a zone, or to remove merchandise from a zone shall show the written concurrence of the grantee, except where the regulations in this part provide for the making of applications by the grantee itself or permit the grantee to file a separate specific or blanket approval.

(b) *Questioning grantee's concurrence*. Government officers acting in their official capacities may question the grantee's concurrence if in their opinion it was improperly given.

§ 30.6 Authority to examine merchandise.

The district director may cause any merchandise in a zone to be examined at the time of admission, or at any time thereafter, if the examination is deemed necessary to facilitate the proper administration of any law, regulation, or instruction which the Customs Service is authorized to enforce.

§ 30.7 Transportation of merchandise to a zone.

(a) *From outside customs territory*. Merchandise may be brought directly to a zone from anyplace outside customs territory.

(b) *Through customs territory; foreign merchandise*. Foreign merchandise destined to a zone and transported in bond through customs territory shall be subject to the laws and regulations applicable to other merchandise transported in bond between two places in customs territory.

(c) *From customs territory; domestic merchandise.* Domestic merchandise may be brought to a zone from customs territory by any means of transportation which will not interfere with the orderly conduct of business in the zone.

§ 30.8 Use of zone by carriers.

(a) *Primary use; lading and unlading.* The water area, docking facilities, and any loading and unloading stations of a zone are intended primarily for the unlading of merchandise into the zone or the lading of merchandise for removal from the zone. Their use for other purposes may be terminated by the Secretary of the Treasury if found to endanger the revenue or by the Board if found to impede the primary uses of the zone.

(b) *Carriers in zone not exempt from law or regulation.* Nothing in the Act or the regulations in this part shall be construed as excepting any carrier entering, remaining in, or leaving a zone from the application of any other pertinent law or regulation.

Subpart B—Admission of Merchandise to a Zone

§ 30.11 Merchandise permitted in a zone.

Merchandise of every description, including over-quota merchandise, may be brought into a zone unless prohibited by law. A distinction is made between prohibited and conditionally admitted merchandise.

(a) *Prohibited merchandise.* Prohibited merchandise is merchandise which is prohibited by law on the grounds of policy or morals, such as immoral literature, obscene articles, or lottery matter. District directors are required to exclude this class of articles and may not permit them to be transferred to a zone if aware of their prohibited status. If there is a question as to whether the merchandise is prohibited, district directors may permit the temporary deposit of the merchandise in a zone pending a final determination of its status. Any prohibited merchandise which is found within a zone shall be disposed of in the manner provided for in the laws and regulations applicable to such merchandise.

(b) *Conditionally admitted merchandise.* Conditionally admitted merchandise is merchandise which may be imported under certain conditions, for example, articles which are subject to permits or licenses or which may be reconditioned to bring them into compliance with the laws administered by various Federal agencies. The admission of articles of this class into a zone is subject to any requirements of the Federal agency concerned.

§ 30.12 Application and permit for admission of merchandise.

(a) *Application on zone Form D and permit.* Except in the case of entered merchandise brought into a zone for manipulation (§ 30.13) and merchandise transiting a zone (§ 30.14), merchandise may be admitted into a zone only upon application on zone Form D, Applica-

tion to Admit Merchandise into Foreign-Trade Zone, and the issuance of a permit by the district director.

(b) *Documents in support of application—(1) Merchandise transported through customs territory.* For foreign merchandise arriving at a zone after transportation through customs territory the application shall be supported by:

(i) *Release order.* A release order on the application or another document executed by the carrier which brought the goods to the port where the zone is located authorizing the transfer of the merchandise to the zone; and

(ii) *Evidence of right to make entry.* A document or documents like those which would be required of the applicant as evidence of his right to make entry for merchandise in customs territory (see § 8.6 of this chapter).

(2) *Merchandise unladen directly from the importing carrier.* For merchandise unladen in the zone directly from the importing carrier the application on zone Form D shall be supported by an application to unlade on customs Form 3171 (§ 30.14(a)).

(c) *Conditions for issuance of a permit.* Merchandise for which an application to admit merchandise to a zone is made shall be admitted when:

(1) The application is properly executed and includes an indication of the desired zone status of the merchandise (i.e., privileged foreign, privileged domestic, nonprivileged foreign, nonprivileged domestic, or zone-restricted merchandise as provided for in Subpart C of this part);

(2) The grantee's approval appears either on the application or in a separate specific or blanket approval (§ 30.5); and

(3) The permit is granted by the district director as the representative of the board.

§ 30.13 Temporary admission for manipulation.

Imported merchandise for which an entry has been made and which has remained in continuous customs custody may be admitted temporarily to a zone for manipulation and return to customs territory under customs supervision pursuant to section 562, Tariff Act of 1930, as amended (19 U.S.C. 1562) and § 19.11 of this chapter. Such merchandise shall not be considered within the purview of the Act but shall be treated as though remaining in customs territory. No zone form or procedure shall be considered applicable, but the merchandise shall remain subject in the zone to such requirements as are necessary for the enforcement of section 562 and other pertinent customs laws.

§ 30.14 Merchandise transiting a zone.

The following procedures are applicable when merchandise is to be unladed from any carrier in the zone for immediate transfer to customs territory, or if it is to be transferred from customs territory through the zone for immediate lading on any carrier in the zone:

(a) *Application.* Application for permission to lade or unlade shall be filed with the district director on customs

Form 3171 prior to transfer of the merchandise into the zone.

(b) *Permit.* The district director shall permit the transfer unless he has reason to believe that the merchandise will not be moved promptly from the zone or made the subject of an application for zone status on zone Form D in accordance with § 30.12.

(c) *Treatment of merchandise.* Upon the issuance of a permit to lade or unlade, the merchandise shall not be considered within the purview of the Act but shall be treated as though the lading or unlading were in customs territory.

(d) *Failure to lade merchandise without delay.* Merchandise brought into a zone for lading on a carrier but not laden without a delay which will endanger the revenue must be made the subject of an application for zone status on zone Form D in accordance with § 30.12 or be removed from the zone.

§ 30.15 Certificate of arrival of merchandise.

Whenever a certificate as to the arrival of any merchandise in a zone is required by a Federal agency, the district director shall issue the certificate, properly describing and identifying the merchandise involved.

Subpart C—Status of Merchandise in a Zone

§ 30.21 Privileged foreign merchandise.

(a) *Merchandise subject to the provisions of this section.* Foreign merchandise which has not been manipulated or manufactured so as to effect a change in tariff classification shall be given status as privileged foreign merchandise on proper application to the district director.

(b) *Application.* Each application for this status shall be made on zone Form B at the time of filing the application on zone Form D (see § 30.12) for admission of the merchandise into a zone or at any time thereafter before the merchandise has been manipulated or manufactured in the zone in a manner which has effected a change in tariff classification.

(c) *Zone customs entry.* Each applicant for such status shall file a zone customs entry on customs Form 7502 with his application.

(1) *Evidence of right to make entry.* The original of a properly approved application on zone Form B is acceptable as the equivalent of a bill of lading or carrier's certificate to identify the applicant on such Form B as the consignee of the merchandise and its owner for customs purposes, except that such person may transfer the right to withdraw such merchandise from the zone to customs territory in accordance with Subpart E of this part.

(2) *Preparation, filing, and processing of the entry.* The procedure in connection with the preparation, filing, and processing of the entry, including the making of notations on invoices, the preparation of customs Form 6417, the designation of examination packages or

quantities, and the examination and appraisal of the merchandise shall be the same as that prescribed in the case of an entry for warehouse made in customs territory (see Part 8 of this chapter), except that no bond shall be required.

(3) *Procedure upon acceptance of the entry.* Upon acceptance of the entry the district director shall have the merchandise appraised, classified, taxes determined, and duties liquidated promptly.

(i) *Appraisal and tariff classification.* The merchandise shall be subject to appraisal and tariff classification according to its condition and quantity, and to the rates of duty and tax in force, on the date of filing, in complete and proper form, the request for privileged foreign status on zone Form B and the zone customs entry which is required to accompany it.

(ii) *Basis of valuation.* The value of the merchandise shall be determined in accordance with sections 402, 402a, and 503 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a, 1402, 1503), and related provisions of law. For all customs purposes, the date of exportation of the merchandise from the country whence it was exported to the United States is the date of its final departure from that country, in accordance with § 14.3(b) of this chapter.

(iii) *Amendment of value.* The value declared in any zone customs entry for merchandise may be amended in accordance with the provisions of section 487, Tariff Act of 1930 (19 U.S.C. 1487), and the regulations thereunder (see § 8.16 of this chapter).

(iv) *Merchandise subject to tariff-rate import quotas.* Entries for merchandise subject to tariff-rate import quotas shall be liquidated only at the higher or non-quota rate.

(v) *Determination of taxes.* The taxes to be determined are those of the same nature as are indicated in the liquidation of entries of imported merchandise in customs territory.

(d) *Status as privileged foreign merchandise binding.* A status as privileged foreign merchandise and the consequent determination of taxes and liquidation of duties cannot be abandoned. The taxes and duties remain applicable to the merchandise even if changed in form by manipulation or manufacture, except in the case of recoverable waste (see section 30.48), as long as the merchandise remains within the purview of the Act. However, privileged foreign merchandise may be exported or withdrawn for supplies, equipment, or repair material of vessels or aircraft without the payment of the determined taxes and liquidated duties, in accordance with §§ 30.41, 30.42, and 30.45(d).

(e) *Appeals and protests.* The requirements, privileges, and procedures of notices of appraisal, appeals to reappraisal, posting of liquidations, and protests against decisions of the district director are the same as those prescribed in the case of merchandise covered by an entry for warehouse in customs territory.

(f) *Permission to manipulate, manufacture, or exhibit.* Application may be made pursuant to § 30.32 for permission to manipulate, manufacture, or exhibit the merchandise before taxes have been determined and duties liquidated thereon, but in such case the examination for purposes of appraisal must be completed, or the packages or samples required for such examination must be segregated, before the district director approves the application.

§ 30.22 Privileged domestic merchandise.

(a) *Merchandise subject to the provisions of this section.* Privileged domestic status may be granted to merchandise:

(1) Of the growth, product, or manufacture of the United States on which all internal-revenue taxes, if applicable, have been paid;

(2) Previously imported and on which duty and/or tax has been paid; or

(3) Previously admitted free of duty and tax.

(b) *Application.* Application for privileged domestic status shall be included in the application on zone Form D (§ 30.12) to transfer the merchandise into the zone, but the documents in support of the application described in § 30.12(b) are not required.

(c) *Domestic packing and repair materials.* If the district director is satisfied that the revenue will be protected, and the rights of importers will not be prejudiced, he may permit the transfer to a zone of domestic packing and repair materials and related articles without requiring an application on zone Form D.

(d) *Return of merchandise to customs territory.* Upon compliance with this section and § 30.44, any of the foregoing merchandise may subsequently be returned to customs territory free of quotas, duty, or tax.

§ 30.23 Nonprivileged foreign merchandise.

All of the following shall have the status of nonprivileged foreign merchandise:

(a) Foreign merchandise properly in a zone which does not have the status of privileged foreign merchandise or of zone-restricted merchandise;

(b) Waste recovered from any manipulation or manufacture of privileged foreign merchandise in a zone; and

(c) Domestic merchandise in a zone which by reason of noncompliance with these regulations has lost its identity as domestic merchandise and will be treated as foreign merchandise if transferred to customs territory. Any domestic merchandise shall be deemed to have lost its identity if the district director determines that it cannot be identified positively by customs officers as domestic merchandise on the basis of their examination of the articles and their consideration of any proof that may be submitted promptly by a party in interest.

§ 30.24 Nonprivileged domestic merchandise.

All merchandise which could have obtained the status of privileged domestic merchandise but for which no application for such status has been approved (not including any merchandise within the purview of § 30.23(c)) shall have the status of nonprivileged domestic merchandise.

§ 30.25 Zone-restricted merchandise.

(a) *Merchandise subject to the provisions of this section.* Articles taken into a zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage shall be given zone-restricted status on proper application. Such articles may not be returned to customs territory for domestic consumption except where the Board deems such return to be in the public interest (see § 30.47).

(b) *Application.* Application for zone-restricted status shall be included in the application on zone Form D to transfer the merchandise into the zone as provided for in § 30.12.

(c) *Merchandise considered exported.*—(1) *For customs purposes.* If the applicant desires a zone-restricted status in order that the merchandise may be considered exported for the purpose of any customs law, all pertinent customs requirements relating to actual exportations shall be complied with as though the admission of the merchandise into the zone constituted a lading on an exporting carrier at a port of final exit from the United States. Any declaration or form required for actual exportation shall be modified to show that the merchandise has been deposited in a zone in lieu of actual exportation, and a copy of the approved zone Form D may be accepted in lieu of any proof of shipment required in cases of actual exportation.

(2) *For other purposes.* If the merchandise is to be considered exported for the purpose of any Federal law other than the customs laws, the district director shall be satisfied that all pertinent laws, regulations, and rules administered by the Federal agency concerned have been complied with before he approves the application on zone Form D.

(d) *Merchandise entered for warehousing transferred to a zone.* Merchandise entered for warehousing and transferred to a zone, other than temporarily for manipulation and return to customs territory as provided for in § 30.13, shall have the status of zone-restricted merchandise when admitted into the zone. The application on zone Form D shall state that zone-restricted status is desired for the merchandise.

Subpart D—Handling of Merchandise in a Zone

§ 30.31 Customs control of merchandise in a zone.

(a) No merchandise shall be removed from a zone in any manner or for any

purpose except as provided for in the regulations in this part.

(b) If the district director deems it necessary for the protection of the revenue, he may require segregation of any merchandise he determines to be subject to special risks to the revenue.

(c) The grantee shall keep the district director currently informed as to the location of any merchandise in the zone which is not within the purview of paragraph (b) of this section, and shall notify the district director promptly of any loss or damage that may occur to any merchandise in the zone.

§ 30.32 Manipulation, manufacture, or exhibition in a zone.

(a) *Application.* Permission for manipulation, manufacture, or exhibition of merchandise in a zone may be obtained by filing with the district director an application on zone Form E. No such operation shall be carried on until the district director has approved the application. The application shall include:

(1) A full description of the proposed operation;

(2) A designation of the exact place in the zone where the operation is to be performed;

(3) The identification of the involved merchandise by lot number, marks and numbers of the packages, description, quantity, and zone status; and

(4) In the case of manipulation or manufacture, a statement as to whether articles with one zone status are to be packed, commingled, or combined with articles having a different zone status.

(b) *Approval of application.* The district director shall approve the application unless the proposed operation would be in violation of the fourth or fifth proviso to section 3 of the Foreign-Trade Zone Act, as amended, 19 U.S.C. 81c, or the place designated for its performance is not suitable for preventing confusion as to the identity or status of the merchandise and for safeguarding the revenue.

(1) *Fourth proviso*—The proviso reads as follows:

"That under the rules and regulations of the controlling Federal agencies, articles which have been taken into a zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage shall be considered to be exported for the purpose of—

(a) The draw-back, warehousing, and bonding, or any other provisions of the Tariff Act of 1930, as amended, and the regulations thereunder; and

(b) The statutes and bonds exacted for the payment of draw-back, refund, or exemption from liability for internal-revenue taxes and for the purposes of the internal-revenue laws generally and the regulations thereunder.

"Such a transfer may also be considered an exportation for the purposes of other Federal laws insofar as Federal agencies charged with the enforcement of those laws deem it advisable. Such articles may not be returned to customs territory for domestic consumption except where the Foreign-Trade Zones Board deems such return to be in the public interest, in which event the articles shall be subject to the provisions of paragraph 1615 (f) of section 1201 of this title: * * *"

(2) *Fifth proviso*—The proviso reads as follows:

"That no operation involving any foreign or domestic merchandise brought into a zone which operation would be subject to any provision or provisions of section 1807 of Title 26 and chapters 15-17, 21, 23-26 or 32 of Title 26, if performed in customs territory, or involving the manufacture of any article provided for in paragraphs 367 and 368 of section 1001 of this title, shall be permitted in a zone except those operations (other than rectification of distilled spirits and wines, or the manufacture or production of alcoholic products unfit for beverage purposes) which were permissible under this chapter prior to July 1, 1949: * * *"

(For current reference to title 19 and 26 of the United States Code, see notes following text of 19 U.S.C. 81c.)

(c) *Appeal of adverse ruling.* If the application is denied by the district director for any reason, the applicant, or the grantee, may appeal the adverse ruling to the Board. If any revenue protection considerations are involved in such an application, the Board shall be guided by the determinations of the Secretary of the Treasury with respect to them.

(d) *Records to be maintained.* (1) Privileged merchandise. When any privileged merchandise is to be manipulated in any way or manufactured, the person performing the operation shall maintain records containing the following information:

(i) A full identification, as specified in paragraph (a) of this section, of each lot of privileged merchandise used in the operation;

(ii) The unit and total values of each such lot, the values in the case of privileged foreign merchandise to be those declared in the zone customs entry (§ 30.21(c)), including any amendment thereof;

(iii) The commercial name or description of the product resulting from the operation, or of each such product if there are more than one;

(iv) The quantity of such product or of each such product, as the case may be;

(v) The commercial name or description and quantity of each kind of waste recovered from the operation; and

(vi) The description (i.e., evaporation, leakage, spillage, dust, etc.) and quantity of each kind of loss resulting from the operation.

(2) *Nonprivileged merchandise.* If any nonprivileged merchandise is to be used in the operation, records shall be maintained containing a full identification, as specified in paragraph (a) of this section, and the unit and total values of each lot of the merchandise used in the operation.

§ 30.33 Destruction of merchandise in a zone.

(a) *Application.* Each application to destroy merchandise in a zone shall be filed with the district director on zone Form E. The application shall include:

(1) A description of the proposed method of destruction;

(2) A designation of the place where the destruction is to be accomplished; and

(3) The identification of the involved merchandise by lot number, marks and numbers of the packages, description, quantity, and zone status.

(b) *Approval of application and procedure for destruction of merchandise.* The destruction of distilled spirits, wines, and fermented malt liquors having a zone-restricted status may not be authorized in view of the exception in the fourth proviso to section 3 of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81c). In any other case, if the district director is satisfied that the destruction will be effective and that the revenue will be adequately protected, he shall approve the application. If proper destruction cannot be effectively accomplished within the zone, the district director may permit it to be done elsewhere, in whole or in part, under such conditions as he shall specify for protecting the revenue. Any residue of destruction which is entirely worthless may be removed to customs territory for disposal.

Subpart E—Removal of Merchandise From a Zone

§ 30.41 Direct exportation from a zone.

Regardless of its zone status, any merchandise in a zone may be exported directly therefrom upon compliance with the procedure prescribed in § 30.44 for the transfer of privileged domestic merchandise to customs territory.

§ 30.42 Supplies, equipment, and repair material for vessels and aircraft.

(a) *Applicability.* Any article which may be withdrawn duty and tax free in customs territory under section 309 or 317 of the Tariff Act of 1930, as amended (19 U.S.C. 1309, 1317) and §§ 10.59 through 10.65 of this chapter may similarly be withdrawn from a zone, regardless of its zone status, under said statutes and regulations. Privileged domestic merchandise is not subject to the provisions of this section and may be withdrawn from a zone in accordance with the provisions of § 30.44.

(b) *Articles for delivery within zone where withdrawn.* The withdrawal of articles provided for in paragraph (a) of this section for delivery within the zone where withdrawn to a qualified vessel or aircraft, or as ground equipment of a qualified aircraft, shall be on customs Form 7512 (see § 10.60 of this chapter).

(1) *Who may make the withdrawal.* The withdrawal of articles composed in whole or in part of privileged foreign merchandise shall be made by the person identified on zone Form B as the consignee (see § 30.21(c)(1)). The withdrawal of all other articles under this section shall be made by the person designated as the consignee by the written authorization of the grantee.

(2) *Supporting documents*—(i) *Description.* The withdrawal shall be supported by a description of the articles similar to that provided for in § 30.44(a).

(ii) *Bond.* A bond on customs Form 7557, 7559, or 7595 shall be required with the withdrawal.

(3) *Release of articles.* Upon acceptance of the withdrawal, the district director shall release the merchandise to the grantee for delivery to the qualified vessel or aircraft in the zone.

(c) *Articles for delivery outside zone where withdrawn.* The withdrawal of articles provided for in paragraph (a) of this section for delivery at a place outside the zone to a qualified vessel or aircraft, or as ground equipment of a qualified aircraft, shall be on customs Form 7512. (See § 10.60 of this chapter.)

(1) *Who may make the withdrawal.* The withdrawal of privileged foreign merchandise which has not been mixed, combined, or repacked in the zone or of a product of a manipulation or manufacture in a zone composed of or derived from privileged merchandise only, whether all foreign, or partly foreign and partly domestic, shall be made by the person named on zone Form B as the consignee or by a transferee designated on the withdrawal and approved by the grantee. (See § 30.45(b)(2).) The withdrawal of other articles under this section shall be made by the person designated by the grantee on zone Form C as the consignee. Except for articles described in the first sentence of this paragraph the provisions of §§ 30.47 (b) through (f) and 30.48(b) relating to constructive transfer are applicable whether or not the merchandise is zone restricted.

(2) *Bond.* The withdrawal shall be supported by a bond on customs Form 7557, 7559, or 7595.

(3) *Acceptance of withdrawal and release of merchandise.* Upon acceptance of the withdrawal the district director shall note thereon the status of the merchandise and shall release the merchandise to the grantee for delivery to the bonded cartman, lighterman, or carrier.

§ 30.43 Transfer of merchandise from one zone to another.

(a) *Privileged domestic merchandise.* The transfer of privileged domestic merchandise from one zone to another is not subject to customs control except that the removal of the merchandise from the first zone and its admission into the zone of destination shall be in accordance with §§ 30.44 and 30.12.

(b) *Other merchandise.*—(1) *Procedure.* The transfer of merchandise, other than privileged domestic merchandise, from a zone at one port of entry to a zone at another port shall be by bonded carrier under an entry for immediate transportation on customs Form 7512. All copies of the entry for immediate transportation shall bear a notation that the merchandise is being taken from the first zone for the purpose of transfer to the second zone. Privileged foreign merchandise which has not been mixed, combined, or repacked in the zone and products of a manipulation or manufacture in a zone composed of or derived from privileged merchandise, whether all foreign, or partly foreign and partly domestic, shall be transferred from the zone in accordance with § 30.45(c)(1)–(4) and admitted to the second zone in accordance with § 30.12. The transfer of other merchandise from the first zone

into customs territory and its admission into the zone of destination shall be in accordance with §§ 30.48(b) and 30.12.

(2) *Forwarding of history of the merchandise.* Upon removal of merchandise as specified in paragraph (b)(1) of this section from the first zone, the district director of the port where such zone is located shall immediately forward to the district director of the port where the zone of destination is located a history of the merchandise as shown by the records of the first zone.

§ 30.44 Transfer of privileged domestic merchandise into customs territory.

(a) *Submission of description of transaction.* When privileged domestic merchandise which has not been mixed, combined, or repacked in a zone with merchandise having a different zone status is to be transferred from the zone to customs territory, the grantee shall submit to the district director, in triplicate, a description of the proposed transaction signed by him which shall include:

- (1) The proposed rate of transfer;
- (2) The identification of the carrier;
- (3) The destination of the shipment;
- (4) Identification of the merchandise by zone storage location, lot number, marks and numbers of packages, description, quantity, and zone status; and
- (5) A notation as to any shortage or damage.

If a form of tally prepared by the grantee for its own purposes contains the necessary information, it may be accepted in lieu of the required description.

(b) *Permit of delivery.* If the transfer is approved by the district director, the original of the description shall be so stamped to serve as a permit of delivery. The original and one copy shall be returned to the grantee. No document other than the permit of delivery shall be required to release the merchandise to the grantee and authorize its transfer into customs territory.

§ 30.45 Transfer of privileged foreign merchandise into customs territory.

(a) *Merchandise subject to the provisions of this section.* The provisions of this section are applicable to privileged foreign merchandise which has not been mixed, combined, or repacked in a zone.

(b) *Withdrawal for consumption at port where zone is located.*—(1) *Application for transfer.* When merchandise subject to the provisions of this section is to be transferred to customs territory for consumption, a zone withdrawal shall be made on customs Form 7505 as an application for the transfer.

(2) *Who may make the withdrawal.* The withdrawal shall be made by the person identified on zone Form B as the consignee (see § 30.21(c)(1)) or by a transferee designated by an endorsement on customs Form 7505 and approved by the grantee.

(3) *Bond.* The zone withdrawal shall be supported by a bond on customs Form 7551, 7553, or other appropriate form. A bond shall not be required when all the merchandise to be transferred to customs territory has been inspected, examined,

and appraised, has been found to comply with all laws and regulations governing its admission into the commerce of the United States, and there have been produced all documents for the production of which a bond is required by law or regulations if not filed at the time of entry.

(4) *Payment of duties and taxes.* The applicant shall pay the liquidated duties and determined taxes, as assessed in the liquidation of the zone customs entry (§ 30.21(c)), on the quantity of merchandise to be transferred. If the pertinent zone customs entry has not been liquidated, estimated duties and taxes shall be deposited.

(5) *Release of merchandise.* Upon acceptance of the withdrawal, the district director shall release the merchandise to the grantee for delivery.

(c) *Withdrawal for transportation to another port for withdrawal for consumption.*—(1) *Application for transfer.* When merchandise subject to the provisions of this section is to be transferred to customs territory for transportation to another port for withdrawal for consumption, a zone withdrawal for transportation clearly indicating the status of the merchandise shall be made on customs Form 7512 as an application for the transfer.

(2) *Who may make the withdrawal for transportation.* The withdrawal shall be made by the person identified on zone Form B as the consignee (see § 30.21(c)(1)) or by a transferee designated by an endorsement on customs Form 7512 and approved by the grantee.

(3) *Certification by district director at zone port.* The district director at the zone port shall issue a certificate, in triplicate, describing the merchandise in its present condition and certifying the amount of duties and taxes applicable to the shipment. The duplicate copy of such certificate shall be given to the withdrawer.

(4) *Release of merchandise for transportation.* Upon acceptance of the withdrawal, the district director shall release the merchandise to the grantee for delivery to the bonded carrier.

(5) *Withdrawal for consumption at port of destination.* A withdrawal for consumption shall be made at the port of destination on customs Form 7519 by the person identified on zone Form B as the consignee (see § 30.21(c)(1)) or by a transferee designated on the withdrawal and approved by the grantee. The withdrawal for consumption shall be supported by the duplicate copy of the certificate described in subparagraph (3) of this paragraph and also by a bond on customs Form 7551, 7553, or other appropriate form, when required, pursuant to paragraph (b)(3) of this section.

(6) *Payment of duties and taxes.* The applicant shall pay the liquidated duties and determined taxes, as assessed in the liquidation of the zone customs entry (§ 30.21(c)), on the quantity of merchandise being withdrawn. If the zone customs entry has not been liquidated, estimated duties and taxes shall be deposited.

(d) *Withdrawal for transfer into customs territory for exportation.* When merchandise subject to the provisions of this section is to be transferred to customs territory for exportation, a withdrawal for exportation, or for transportation and exportation, shall be made on customs Form 7512 by the person identified on zone Form B as the consignee (see § 30.21(c)(1)) or by a transferee designated by an endorsement on customs Form 7512 and approved by the grantee. Upon acceptance of the withdrawal the district director shall note the status of the merchandise on the document, and release the merchandise to the grantee for delivery to the carrier.

§ 30.46 Transfer of products of manipulation or manufacture of privileged merchandise into customs territory.

(a) *Merchandise subject to the provisions of this section.* The provisions of this section are applicable to products of manipulation or manufacture in a zone composed of or derived from privileged merchandise only, whether all foreign, or partly foreign and partly domestic.

(b) *Withdrawal for consumption at port where zone is located.* When products subject to the provisions of this section are to be transferred to customs territory for consumption, a zone withdrawal shall be made on customs Form 7505 as an application for the transfer, and the requirements of this paragraph and of § 30.45(b) shall be applicable.

(1) *Documents required in support of the withdrawal.* (i) *Statement.* A statement in the form of an invoice containing the information required by § 30.32 (d)(1) shall be filed with the withdrawal.

(ii) *Certificate of identification.* When necessary to support the withdrawal, application may be made to the district director for a certificate on zone Form F covering identification, as shown by customs records, of the privileged merchandise used in the manipulation or manufacture.

(2) *Conditions for acceptance of withdrawal.* The district director shall not accept zone withdrawals for products of manipulation or manufacture of privileged foreign merchandise until he has definitely established that the merchandise actually exists in the zone in its final form as described in the withdrawal and that all other documents required to be submitted with the withdrawal have been received.

(c) *Withdrawal for transportation to another port for withdrawal for consumption.* When products subject to the provisions of this section are to be transferred to customs territory for transportation to another port for withdrawal for consumption, a zone withdrawal for transportation clearly indicating the status of the merchandise shall be made on customs Form 7512 as an application for the transfer. The provisions of paragraph (b) (1) and (2) of this section and the procedure prescribed in § 30.45(c) (2) through (6) shall be applicable.

(d) *Withdrawal for transfer into customs territory for exportation.* When products subject to the provisions of this

section are to be transferred to customs territory for exportation, the procedure prescribed in § 30.45(d) shall be applicable.

(e) *Articles produced or manufactured in a zone returned to customs territory after exportation.* Articles produced or manufactured in a zone and exported without having been transferred to customs territory other than for exportation or for transportation and exportation shall, on their return to customs territory, be subject to the duties and taxes applicable to like articles of wholly foreign origin, unless it is conclusively established that they were produced or manufactured exclusively with the use of privileged domestic merchandise, the identity of which was maintained in accordance with the pertinent provisions of these foreign-trade zone regulations, in which case they shall be subject to the pertinent provisions of schedule 8, part 1 of the Tariff Schedules of the United States.

§ 30.47 Transfer of zone-restricted merchandise into customs territory.

(a) *Types of entry.* Zone-restricted merchandise may be returned to customs territory only for entry for exportation, for entry for transportation and exportation, for destruction (except destruction of distilled spirits, wines and fermented malt liquors), for transfer from one zone to another, or for delivery to a qualified vessel or aircraft or as ground equipment of a qualified aircraft under section 309 or 317 of the Tariff Act of 1930, as amended, unless the Board has ruled that the return of the merchandise to customs territory for domestic consumption is in the public interest. If the return of zone-restricted merchandise to customs territory for domestic consumption has been ruled by the Board to be in the public interest, it may be entered for consumption, for warehousing, or for immediate transportation without appraisal, unless the Board has specified which of these forms of entry shall be made.

(b) *Application for constructive transfer to customs territory.* When zone-restricted merchandise is to be transferred to customs territory, the grantee shall file an application with the district director on zone Form C naming the person who will be deemed the consignee of the merchandise with the right to make entry or withdrawal therefor upon its transfer to customs territory. The application shall include a complete identification of the merchandise as it entered the zone, including lot numbers, marks and numbers of the packages, status of each lot, description, and quantities. If any change in respect of any of these items of identification occurred while the merchandise was in the zone, the current information with respect to each such item shall also be stated. The district director shall not accept a term application on Form C.

(c) *Constructive transfer.* Upon the approval by the district director of an application on zone Form C, the merchandise shall be deemed to have been transferred to customs territory but

without physical removal from the zone. For all customs purposes the merchandise shall be considered to have been imported into customs territory at the time of this constructive transfer. The district director shall note on the application the date of constructive transfer and the zone status of the merchandise. The constructively transferred merchandise shall be marked or labeled with the initials "C.T."

(d) *Restoration to zone status.* The merchandise may be restored to zone status after it has been constructively transferred to customs territory and before the expiration of the time within which entry or withdrawal must be made (see paragraph (e) (2) of this section), if:

(1) A new zone Form D is filed and the same procedure followed as if the merchandise had then first arrived in the zone from or through customs territory (see § 30.12). The zone grantee shall be deemed the carrier which brought the merchandise into the port; or

(2) The applicant arranges for the redelivery to the district director, prior to the filing of a customs entry, or withdrawal, of the grantee's copy of the zone Form C with a request that it be cancelled.

(e) *Customs entry or withdrawal and time limitation.* (1) The original of zone Form C, when approved by the district director and endorsed by him with the date of constructive transfer and the zone status of the merchandise, shall be accepted as the equivalent of a bill of lading or carrier's certificate to identify the person named in such Form C as the consignee of the merchandise and its owner for customs purposes with the right to make entry or withdrawal.

(2) A customs entry or withdrawal shall be filed in proper form before 5 p.m. of the second working day after the date of constructive transfer of the merchandise. The time may be extended for such longer period as may be specified in a layorder issued by the district director upon the filing of a written application on customs Form 3189 by the grantee, or by the named consignee if approved by the grantee. If a customs entry or withdrawal in proper form is not filed within the time limit, the merchandise shall be considered as having been returned from constructive customs territory to the zone.

(3) If the return of zone-restricted merchandise to customs territory for consumption has been ruled by the Board to be in the public interest, the entry shall be endorsed by the district director to show the authority under which it was made, and that the merchandise is subject to the provisions of schedule 8, part 1 of the Tariff Schedules of the United States. Upon acceptance of an entry or withdrawal for any other zone-restricted merchandise, the entry shall be endorsed by a customs officer to show that actual exportation of the merchandise is required by the fourth proviso to section 3 of the Act, as amended, and the withdrawal endorsed to require delivery to a qualified vessel or aircraft or as

ground equipment of a qualified aircraft under section 309 or 317 of the Tariff Act of 1930, as amended. (See § 30.42.)

(f) *Release of merchandise.* When a consumption entry is accepted for zone-restricted merchandise the district director shall release the merchandise to the grantee for delivery to the consignee. When any other entry or withdrawal is accepted for such merchandise, the release of the merchandise by the district director for physical removal to the designated destination in customs territory or for direct exportation shall be in accordance with the customs regulations as to merchandise imported into customs territory, the zone grantee to be considered as the importing carrier.

§ 30.43 Treatment of merchandise not elsewhere provided for in this subpart.

(a) *Merchandise not elsewhere provided for in this subpart includes.* (1) Articles composed entirely of, or derived entirely from, nonprivileged merchandise, foreign or domestic.

(2) Articles composed in part of, or derived in part from, nonprivileged merchandise, domestic, or foreign, and in part of or from privileged merchandise, domestic or foreign.

(3) Recoverable waste resulting from the manipulation or manufacture in a zone of privileged foreign merchandise.

(b) *Constructive transfer.* When articles subject to the provisions of this section are to be transferred from a zone to customs territory, the procedure provided for in § 30.47 (b) through (f) shall be followed, except that if the entry has not been filed in proper form before the expiration of the time allowed for entry in § 30.47(c)(2), the merchandise shall be deposited in general order storage in customs territory.

(c) *Entry for consumption or warehousing.* Articles subject to the provisions of this section may be transferred from a zone for entry for consumption or, except in the case of articles composed of or derived in part from privileged foreign merchandise, for entry for warehousing subject to the treatment specified in paragraph (e) of this section.

(d) *Supporting statement and certificate.* There shall be filed with each entry for articles described in paragraph (a) (2) of this section a statement in the form of an invoice containing the information specified in § 30.32(d)(1). When necessary to support the entry, application may be made for a certificate on zone Form F covering identification as shown by the customs records of any privileged domestic or privileged foreign merchandise in the articles.

(e) *Appraisal and tariff classification.* Merchandise subject to the provisions of this section, upon transfer from a zone and entry for consumption or for warehousing, either immediately or after transportation in bond, shall be subject to appraisal and tariff classification in accordance with its character and condition at the time of its constructive transfer to customs territory and, except for any different rates applicable to any privileged foreign merchandise

therein, to the rate or rates of duty and tax in force at the time entry for consumption or withdrawal from warehouse for consumption is made (see § 8.4 (d) and (g) of this chapter). The value of such products shall be determined in accordance with sections 402, 402-a, and 500 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a, 1402, 1500), and the related provisions of law.

(f) *Liquidation.* The consumption or warehouse entry covering a product provided for in paragraph (a) of this section shall be liquidated in accordance with part 16 of this chapter, except that in the case of articles described in paragraph (a) (2) adjustment shall be made for that part of the product which consists of or has been derived from privileged merchandise.

Prior to adoption of the revision, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20226, and received not later than 60 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

GENERAL GRAZING REGULATIONS

Notice of Proposed Rule Making

NOVEMBER 18, 1968.

Basis and purpose. This notice is published in the exercise of rule making authority (hereinafter referred to) delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2. Pursuant to the authority vested in the Secretary of the Interior

by sections 161, 463, and 465 of the Revised Statutes (5 U.S.C. 301; 25 U.S.C. 2 and 9), and by section 6 of the Act of June 18, 1934 (48 Stat. 986), there was published in the FEDERAL REGISTER on October 17, 1968 (33 F.R. 15429), a notice of a proposed revision of Part 151, Subchapter N, Chapter I, Title 25—Indians, of the Code of Federal Regulations. The purpose of the revision is to redefine and to clarify the exercise of the Indian's and Secretary's authorities and responsibilities relative to the grazing use of tribally and individually Indian owned rangelands. The objectives are maximum Indian participation in determining the manner of use of Indian grazing resources; achievement of the fullest economic improvement and return attainable; and application of measures necessary to assure full rangeland utilization while affording protection against deterioration and waste of the resource.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections, with respect to the proposed revision. Valid requests for an additional 90 days in which to submit written comments, suggestions, or objections with respect to the proposed revisions have been received. Accordingly, interested persons are hereby granted an additional 90 days from November 16, 1968, in which to submit written comments, suggestions, or objections with respect to the proposed revision to the Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, D.C. 20242.

T. W. TAYLOR,
Acting Commissioner
of Indian Affairs.

[Docket No. AO-322-A2]

ONIONS GROWN IN SOUTH TEXAS

Notice of Hearing Regarding Proposed Amendment of Marketing Agreement and Order

Pursuant to applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Commissioner's hearing room, Hidalgo County Courthouse, 100 North Closer Street, Edinburg, Tex., beginning at 9:30 a.m., December 18, 1968, with respect to proposed amendment of Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR Part 959), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the han-

dling of onions grown in certain designated counties in South Texas. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic, marketing and other conditions relating to the proposed amendments, hereinafter set forth, and to any appropriate modifications thereof.

The proposed amendments to the marketing agreement and order were submitted by the South Texas Onion Committee, the administrative agency established pursuant to the marketing agreement and order, with a request for a hearing thereon.

The proposals are as follows:

Amend § 959.27 *Nomination* by adding to the end of each of paragraphs (a) and (c) thereof, the following: "or by such other date as may be specified by the Secretary".

Amend § 959.43 *Accounting* by changing paragraph (a)(2) to read as follows:

(2) The committee, with the approval of the Secretary, may carry over excess funds into subsequent fiscal periods as reserves: *Provided*, That funds already in reserves do not equal approximately two fiscal periods' expenses. * * *

Amend § 959.52 *Issuance of regulations* in the following respects:

1. As to paragraph (b):

a. By deleting "or" appearing at the end of subparagraph (3); by changing the period to a semicolon at the end of subparagraph (4); and by revising subparagraph (5) to read as follows:

(5) Establish holidays by prohibiting throughout the entire production area the packaging or loading, or both, of onions on Sundays;

b. By adding a new subparagraph (6) reading as follows:

(6) Limit the quantity of onions which may be handled by prohibiting the packaging or loading or both of onions except during specified hours per day or other period or periods of time, or any combination thereof.

2. By adding a new paragraph (d) reading as follows:

(d) No handler may handle onions that were packaged or loaded during any period when such packaging or loading was prohibited by any regulation issued pursuant to subparagraph (5) or (6) of paragraph (b) of this section.

Amend other sections essential to consideration of the above and necessary to conform the marketing agreement and order to the proposed amendments.

The Secretary shall make such changes as may be necessary for the entire marketing agreement and order to conform with any amendments thereto that may result from the hearing pursuant to this notice.

Copies of this notice may be obtained from the Vegetable Branch, Fruit and Vegetable Division, C&MS, U.S. Department of Agriculture, Washington, D.C. 20250, or from David B. Fitz, Field Representative, Fruit and Vegetable Division,

[Docket No. AO-365]

HANDLING OF FLUE-CURED TOBACCO

Notice of Recommended Decision and Opportunity To File Written Exceptions With Respect To Proposed Marketing Agreement and Order

Pursuant to the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900) under provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), hereinafter referred to as the "act," notice is hereby given of the filing with the Hearing Clerk, U.S. Department of Agriculture, of this recommended decision of the Department with respect to a proposed marketing agreement and order (hereinafter at times referred to collectively as the "order") regulating the handling of flue-cured tobacco.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. To be considered, exceptions must be filed not later than December 6, 1968. They should be filed in quadruplicate. All such communications will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. A public hearing was held at six locations in the flue-cured tobacco-producing area during the period of February 26-March 8, 1968, to consider a proposed marketing order program regulating the handling of flue-cured tobacco. Notice thereof was published in the FEDERAL REGISTER on February 10, 1968 (33 F.R. 2850). The notice and the hearing were pursuant to a proposal submitted by the State Granges of North Carolina, South Carolina, and Virginia, and the North Carolina Association of Farmer-Elected Committeemen that the handling of flue-cured tobacco be regulated under a marketing order program, and that the Department hold a hearing on such a proposed program.

In a partial recommended decision of April 17, 1968 (33 F.R. 6125), it was concluded that the hearing should be reopened some time after the 1968 selling season was well underway to receive factual evidence on whether economic and marketing conditions justified a need for regulation and the issuance of a marketing agreement and order. A recommended decision was issued on July 16,

1968 (33 F.R. 10346) on the specific terms and provisions of a proposed marketing agreement and order.

The record evidence supported a finding that a marketing agreement and order for Flue-cured tobacco in 1967 would have provided a legal framework through which an administrative committee could have acted to achieve more orderly marketing conditions and thereby tend to effectuate the declared policy of the act. The record also showed that a number of significant changes were planned by the industry and by the Department for the 1968 selling season in an effort to prevent a recurrence of the chaotic marketing conditions of 1967. However, the record contained a wide difference of opinion as to whether the planned changes would, in fact, prevent such a recurrence.

The hearing was reopened and thereafter reconvened at Raleigh, N.C., on September 11 and 12, 1968, for the limited purpose of receiving up-to-date evidence with respect to the need for regulation and issuance of a marketing agreement and order for Flue-cured tobacco, including evidence as to the effectiveness of the aforementioned changes in the 1968 selling season and whether the then current marketing conditions were orderly or whether they continued to be sufficiently disorderly to justify issuance of a marketing agreement and order.

Material issues. The material issues on the record of the hearing relate to:

1. Whether the handling of Flue-cured tobacco produced in the production area is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects interstate or foreign commerce in Flue-cured tobacco and its products.
2. Whether economic and marketing conditions justify the need for regulation and the issuance of a marketing agreement and order regulating the handling of Flue-cured tobacco to effectuate the declared policy of the act; and
3. What specific terms and provisions should be included in any marketing agreement and order that might be issued.

Findings and conclusions. This recommended decision and the findings and conclusions herein relate only to, and are a followup to, the partial recommended decision of April 17, 1968 (33 F.R. 6125), with respect to material issue No. 2—need for regulation and issuance of a marketing agreement and order. A recommended decision on material issue No. 1 was also contained in the April 17 decision. A recommended decision was issued July 16, 1968 (33 F.R. 10346) covering material issue No. 3.

The following findings and conclusions are based on the evidence adduced at the hearing and the record thereof:

The hearing on a proposed marketing agreement and order program for Flue-cured tobacco conducted at various places throughout the production area helped to bring into clear focus the marketing problems and need for industry-wide unity and cooperative effort in solving these problems. As of September 12 of the current year—the date of the reopened hearing—through the efforts

of the voluntary Flue-Cured Tobacco Marketing Committee, the quantities of Flue-cured tobacco marketed were reasonably well geared to the quantities which could be processed by the redrying plants. The planned actions by the Department and by the industry, which were pointed out in the partial recommended decision of April 17, 1968, were carried out and helped further in tending to establish and maintain orderly conditions in the marketing of Flue-cured tobacco, by eliminating, for example, long waiting periods at auction warehouses. The record shows that, generally, growers were able to unload their tobacco on the day of arrival at the warehouse and to sell the tobacco that same day, or at the latest, during the next sales day. The 1968 production of Flue-cured tobacco was significantly lower than in 1967, and this, too, constituted a substantial factor in achieving orderly marketing conditions.

Therefore, it is concluded that under current improved conditions no action is indicated for the issuance of a marketing agreement and order program for Flue-cured tobacco. However, the promulgation hearing and this proceeding may be reopened should events not now foreseeable develop in the ensuing 1969 selling season to warrant such reopening.

Briefs. At the conclusion of the reopening hearing on September 12, 1968, at Raleigh, N.C., the Presiding Officer fixed September 25, 1968, as the latest day on which interested parties could file briefs. No briefs were received.

Signed at Washington, D.C., on November 19, 1968.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[Sugar Reg. 811]

SUGAR

Proposed Determination for Calendar Year 1969

Notice is hereby given that the Secretary of Agriculture pursuant to authority vested in him by the Sugar Act of 1948, as amended (61 Stat. 922), is considering the determination of the amount of sugar needed to meet the requirements of consumers in the continental United States in 1969 and the establishment of sugar quotas for the calendar year 1969. Such determination is to be made during the last 3 months of this year.

In accordance with the rulemaking requirements of 5 U.S.C. 553 (80 Stat. 378), all persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulation shall file the same in duplicate with the Director, Sugar Policy Staff, Agricultural Stabilization and Conserva-

tion Service, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 15 days after the date of publication of this notice in the FEDERAL REGISTER.

The proposed determination of 1969 sugar requirements for the continental United States and quotas for the calendar year 1969 are set forth essentially in form and language appropriate for issuance, if adopted by the Secretary as follows:

Basis and purpose and bases and considerations. Distribution of sugar in the United States during the 12-month period ended September 30, 1968, amounted to 10,609,000 tons. In the preceding 12-month period only 10,156,000 tons, had been distributed, a quantity 200,000 tons less than in the prior 12-month period ended September 30, 1966. Thus, recent distribution while about 450,000 tons greater than in the preceding 12-month period was only 250,000 tons greater than in the second preceding period.

Weather this year and during 1966 was unusually favorable to sugar consumption, whereas, last year it was subnormal. The same pattern applied to the fruit crop for canning. The current year being leap year also contained one additional day of sugar consumption.

Population in 1969 is expected to be about 1 percent above 1968. Neither the weather, the fruit crop, nor other demand conditions can be counted upon to be quite as conducive to sugar consumption next year, as in the current year. Considering all of these factors, including the absence of the extra day, it is reasonable to expect that consumption in 1969 may be of the order of 10,600,000 tons.

Because of the possible waterfront strike in late December, it is probable that sugar inventories in the hands of retailers, wholesalers, and food processing industries may be slightly above-average at the beginning of next year. As a result of the very large beet sugar crop now being harvested, it is also probable that constructive distribution by beet sugar processors during the closing weeks of the current year for physical delivery next January and February will be well above average. Inventories held by the secondary distributors and sugar consuming industries at the end of next year, as well as constructive deliveries at that time by beet sugar processors cannot now be foreseen with any accuracy. Yet, it is likely that the trend in both cases will be toward a more normal situation. Accordingly, the estimated consumption of sugar of 10,600,000 tons in 1969, may result in reported distribution by primary distributors that year of about 10,500,000 tons.

Inventories of quota sugar held by refiners and importers at the beginning of next year are expected to be above average but there is presently no fully satisfactory basis for anticipating either an increase or a decrease during 1969. The refining loss during next year, though, can be estimated as between 60,000 and 75,000 tons.

The domestic price of raw sugar increased moderately during the first 10 months of 1968. The average for that period was 7.50 cents per pound or 3 percent higher than the 7.26 cents per pound average for the first 10 months of 1967. In the development of this determination, consideration has been given to the desirability of obtaining generally stable prices that will carry out, over the long term, the price objectives of the act.

In view of all of these considerations, it is hereby determined that the amount of sugar needed to meet the requirements of consumers in the continental United States during 1969 is 10,600,000 tons.

A quota of 1,200,000 short tons, raw value, is established herein for Hawaii pursuant to section 202(a) (2) (B) of the Act. Such quota is subject to adjustment pending final data on the production and marketing of sugar by Hawaii in 1968.

It is determined that no reduction is required at this time pursuant to section 202(d) (3) and (4) of the act in the quotas established herein for foreign countries. This action is based on the findings heretofore made as to certain countries that deficits in such countries' 1968 quotas resulted from force majeure, and on the assumption as to the other countries that each country either will fill its 1968 quota within a reasonable tolerance or that facts will be submitted which will support a finding that the short fall in the country's 1968 quota was due to force majeure.

The quota for Southern Rhodesia has been withheld pursuant to Executive Order 11322 issued on January 7, 1967, and is prorated herein to Western Hemisphere countries pursuant to section 202(d) (1) (B) of the Act.

Because the United States is a lucrative market for foreign sugar and because storage, interest, and other carrying charges are much higher in the sugar exporting countries with quotas in this market, than similar charges in the United States, there is a notable desire by foreign suppliers to market a disproportionate share of their annual quotas during the early months of the year. To counteract this tendency and to provide a more orderly market throughout the year, it is hereby determined that imports of foreign sugar shall be limited during the first and second quarters of the year.

For the first time since 1966, beet sugar processors will have sufficient refined beet sugar available to market a seasonally appropriate share of their annual quota during the first half of the year. Mainland cane sugar processors will have an unusually large carryover of raw sugar at the beginning of the year. These facts will limit the demand by refiners for foreign, raw sugar during the first half of the year. Imports during the first half will be limited to 1.9 million tons, of which quantity imports before March 31 will be limited to the sum of 750,000 tons and the quantity of 1969 quota sugar which entered under bond in 1968 for refining and storage, a quantity now estimated at 150,000 tons.

To give recognition to the seasonality of production and movement of sugar from the foreign countries, quota allocations to foreign countries during the first quarter and first half of 1969 will primarily be based on average imports from such foreign countries during such periods for the 4-year period 1965 through 1968.

AUTHORITY: 811.70 to 811.75 issued under sec. 403, 61 Stat. 932, 7 U.S.C. 1153. Interprets or applies to secs. 201, 202, 207, 208, 209, 210; 61 Stat. 923, as amended, 924, as amended, 925, as amended, 927, as amended, and 928, as amended; 7 U.S.C. 1111, 1112, 1117, 1118, and 1119.

§ 811.70 Sugar requirements 1969.

The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1969 is hereby determined to be 10,600,000 short tons, raw value.

§ 811.71 Quotas for domestic areas.

(a) For the calendar year 1969, domestic area quotas limiting the quantities of sugar which may be brought into or marketed for consumption in the continental United States are established, pursuant to section 202(a) of the act in column (1), and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established, pursuant to section 207 of the act in column (2), as follows:

[Short tons, raw value]

Area	Quotas	
	(1)	(2)
Domestic beet sugar.....	3,120,333	No limit
Mainland cane sugar.....	1,134,667	No limit
Hawaii.....	1,200,000	36,252
Puerto Rico.....	1,140,000	159,000
Virgin Islands.....	15,000	0

(b) Of the quantity established in paragraph (a) of this section for Puerto Rico which may be filled by direct-consumption sugar, 126,033 short tons, raw value, may be filled only by sugar principally of crystalline structure.

§ 811.72 [Reserved]

§ 811.73 Quotas for foreign countries.

(a) The quotas or prorations for foreign countries limiting the quantities of sugar which may be imported into the continental United States during the calendar year 1969 for consumption therein and the amounts of such quotas and prorations that may be filled by direct-consumption sugar are hereby established as set forth in the following paragraphs (b), (c), (d), and (e) of this section.

(b) For the calendar year 1969, the quota for the Republic of the Philippines is 1,126,020 short tons, raw value, and

the quantity of such quota that may be filled by direct-consumption sugar is 59,920 short tons, raw value.

(c) For the calendar year 1969, the prorations or allocations to individual foreign countries other than the Republic of the Philippines pursuant to section 202(c) (3) and (4) and section 202(d) of the act are as follows:

(d) (1) Of the total quotas and proration for foreign countries established in paragraphs (b) and (c) of this section, an amount not to exceed 1,900,000 short tons, raw value, of raw sugar, which includes quantities imported in late 1968 under bond for refining and storage, may be charged against such 1969 quotas and authorized for importation or release from bond from all such foreign countries in accordance with Part 817 of this chapter during the first 6 months of 1969. Such charges to such 1969 quotas shall be made in the following manner: (i) The quantities imported in late 1968 under bond for refining and storage will be released from bond and charged to such quotas on January 1, 1969; (ii) in addition, 750,000 short tons, raw value of sugar will be authorized for importation and charged to such quotas during the first quarter of the year and; (iii) that part of the 1,900,000 short tons, raw value, not charged to such 1969 quotas under subdivisions (i) and (ii) of this subparagraph will be authorized for importation and charged to such quotas during the second quarter of 1969.

(2) (i) The importation of raw sugar within the quarterly limitations specified in subdivisions (ii) and (iii) of subparagraph (1) of this paragraph will be authorized on the basis of applications for "Set Aside of Quota" on Form SU-SA or "Sugar Quota Clearance" on Form SU-3 in accordance with the provisions of Part 817 of this chapter, subject to

the priorities for countries as provided in subparagraph (3) of this paragraph for first quarter importations and in subparagraph (4) of this paragraph for second quarter importations and the limitations as provided in subdivision (ii) of this subparagraph. Applications to import raw sugar from the Republic of the Philippines must, before final approval within the quantity reserved for the Republic of the Philippines pursuant to subparagraphs (3) and (4) of this paragraph, be supplemented by certification from the Sugar Quota Administrator for the Government of the Philippines granting the applicant the permission to export sugar to the United States market.

(ii) Applications for the importation of sugar during the first quarter received on or before 5 days after the effective date of this subdivision will be considered as having been received at the same time. Applications for the importation of sugar during the second quarter received on or before January 15, 1969, will be considered as having been received at the same time.

(3) (i) Allocations of first quarter importations among countries will be made in the following manner within the limits of applications received.

(ii) First priority shall be given to countries from which sugar was imported during the first quarter of 1965, 1966, 1967, or 1968, but not to exceed the average of the country's first quarter importations as set forth in subparagraph (5) of this paragraph: *Provided*, That if the quantity of sugar which may be imported during the first quarter is less than the quantity needed to approve all applications for importation in the first quarter, the quantity of sugar which may be imported during the first quarter under this priority shall be prorated among countries on the basis of first quarter importations from countries as set forth in subparagraph (5) of this paragraph.

(iii) Second priority shall be given to countries by making an initial allocation under this priority to countries in order of size of quota, smallest first, limiting such initial allocation to any country to the smaller of 10,000 short tons, raw value, or the quantity which would permit the total importation from the country during the first quarter of up to 20 percent of the country's annual quota. Additional allocations under this priority shall be made to those countries receiving an initial allocation under this priority of 10,000 short tons, raw value, which additional allocation to any such country shall be so limited that the total allocations under priorities in subdivisions (ii) and (iii) of this subparagraph during the first quarter for such country as a percentage of its annual quota will not exceed the percentage similarly calculated for any other such country and shall be further limited so that the total quantity which may be imported from such country during the first quarter shall not exceed 20 percent of the country's annual quota.

(iv) Any quantity not allocated under subdivisions (ii) and (iii) of this subpar-

agraph shall be prorated among countries having priority under subdivision (ii) of this subparagraph that received allocations less than the full amount applied for, and such additional proration shall be made on the basis of the average imports of sugar from the countries during the first quarter as set forth in subparagraph (5) of this paragraph.

(4) (i) Allocations of second quarter importations among countries will be made in the following manner within the limits of applications received.

(ii) First priority shall be given to countries from which sugar was imported during the first half of 1965, 1966, 1967, or 1968, but not to permit charges to the quotas of such countries by virtue of this subdivision during the first half to exceed the average importations from such country as set forth in subparagraph (5) of this paragraph: *Provided*, That if the quantity of sugar which may be imported during the second quarter is less than the quantity needed to approve all applications for importation in the second quarter, the quantity of sugar which may be imported during the second quarter under this priority shall be prorated among countries on the basis of first half importations from countries as set forth in subparagraph (5) of this paragraph.

(iii) Second priority shall be given to countries by making an initial allocation under this priority to countries in order of size of quota, smallest first, limiting such initial allocation to any country to the smaller of 10,000 short tons, raw value, or the quantity which would permit total charges during the first half of up to 50 percent of the country's annual quota. Additional allocations under this priority shall be made to those countries receiving an initial allocation under this priority of 10,000 short tons, raw value, which additional allocation to any such country shall be so limited that the total quota charges under subparagraph (3) of this paragraph, subdivision (ii) of this subparagraph and this subdivision during the first half for such country as a percentage of its annual quota will not exceed the percentage similarly calculated for any other such country; and shall be further limited so that the total quantity which may be imported from such country during the first half shall not exceed 50 percent of the country's annual quota.

(iv) Any quantity not allocated under subdivisions (ii) and (iii) of this subparagraph shall be prorated among countries having priority under subdivision (ii) of this subparagraph that received allocations less than the full amount applied for, and such proration shall be made on the basis of the average imports of sugar from the countries during the first half as set forth in subparagraph (5) of this paragraph.

(5) Average importations into the continental United States within quotas, during the first quarter and first half of the years 1965, 1966, 1967, and 1968 are as follows:

[Short tons, raw value]

Country	First quarter	First half

(e) For the calendar year 1969, the quantity of each proration established in paragraph (c) of this section that may be filled by direct-consumption sugar pursuant to section 207(e) of the act is as follows:

Country	Short tons, raw value
Ireland.....	5,351
Panama.....	3,817

(f) For the calendar year 1969, the quote for liquid sugar for foreign countries as a group is 2 million gallons of sirup of cane juice of the type of Barbados molasses, limited to liquid sugar containing soluble nonsugar solids (excluding any foreign substance that may have been added or developed in the product) of more than 5 percent of the total soluble solids, which is not to be used as a component of any direct-consumption sugar but is to be used as molasses without substantial modification of its characteristics after importation.

§ 811.74 Applicability of quotas.

(a) All sugar and liquid sugar marketed or imported into the continental United States is subject to the provisions of Part 816 or Part 817 of this chapter which prescribe the time, manner, and conditions under which quotas and prorations are filled by the marketing and importation of sugar or liquid sugar.

(b) The quantitative limitations established by §§ 811.71 to 811.73, inclusive, do not apply to sugar or liquid sugar marketed or imported pursuant to sections 211 and 212 of the act in accordance with the provisions of Part 816 or Part 817 of this chapter.

§ 811.75 Restrictions on importations and marketings within quotas.

Subject to the provisions of Parts 816 and 817 of this chapter all persons are prohibited from bringing or importing into or marketing in the continental United States, (a) any sugar or liquid sugar from any country for which no

quota is established or in excess of or after the applicable quota or quantity set forth in §§ 811.71 to 811.73 inclusive has been filled, or (b) any sugar or liquid sugar as direct-consumption sugar from any country for which do direct-consumption sugar limitation is established or after the direct-consumption portion of the applicable quota has been filled.

Signed at Washington, D.C., on November 19, 1968.

JOHN A. BAKER,
Acting Secretary.

AIR QUALITY CONTROL REGIONS

Proposed Designation of Metropolitan Los Angeles Air Quality Control Region; Consultation With Appropriate State and Local Authorities

Pursuant to authority delegated by the Secretary and redelegated to the Commissioner of the National Air Pollution Control Administration (33 F.R. 9909), notice is hereby given of a proposal to designate the Metropolitan Los Angeles Air Quality Control Region as set forth in the following new § 81.17 which would be added to Part 81 of Title 42, Code of Federal Regulations. It is proposed to make such designation effective upon republication.

Interested persons may submit written data, views, or arguments in triplicate to the Office of the Commissioner, National Air Pollution Control Administration, Ballston Center Tower II, Room 905, 801 North Randolph Street, Arlington, Va. 22203. All relevant material received not later than 30 days after the publication of this notice will be considered.

Interested authorities of the State of California, and appropriate local authorities, both within and without the proposed region, who are affected by or interested in the proposed designation, are hereby given notice of an opportunity to consult with representatives of the Secretary concerning such designation. Such consultation will take place at the U.S. Customs Courtroom, 300 North Los Angeles Street, Los Angeles, Calif., beginning at 9 a.m., December 10, 1968.

Mr. Doyle J. Borchers is hereby designated as Chairman for the consultation. The Chairman shall fix the time, date, and place of later sessions and may convene, reconvene, recess, and adjourn the sessions as he deems appropriate to expedite the proceedings.

State and local authorities wishing to participate in the consultation should notify the Office of the Commissioner, National Air Pollution Control Administration, Ballston Center Tower II, Room 905, 801 North Randolph Street, Arlington, Va. 22203, of such intention by December 4, 1968.

A report prepared for the consultation, entitled "Report for Consultation on the Metropolitan Los Angeles Air Quality Control Region," is available upon request to the Office of the Commissioner.

In Part 81 a new § 81.17 is proposed to be added to read as follows:

§ 81.17 Metropolitan Los Angeles Air Quality Control Region.

The Metropolitan Los Angeles Air Quality Control Region consists of the following territorial area (including the territorial area of all municipalities (as defined in section 302(f) of the Clean Air Act, 42 U.S.C. 1857h(f)) geographically located within the outermost boundaries of the area so delimited):

Ventura County—the entire county;

Orange County—the entire county;

Riverside County—that portion of Riverside County which lies west of a line described as follows: Beginning at the point where the range line common to R. 4 E. and R. 3 E. intersects with Riverside-San Diego County boundary and running north along said range line; then east along the township line common to T. 8 S. and T. 7 S. to the southeast corner of sec. 36, T. 7 S., R. 3 E.; then north along the range line common to R. 4 E. and R. 3 E.; then east along the township line common to T. 8 S. and T. 7 S.; then north along the range line common to R. 5 E. and R. 4 E.; then west along the township line common to T. 6 S. and T. 7 S. to the southwest corner of sec. 34, T. 6 S., R. 4 E.; then north along the west boundaries of secs. 34, 27, 22, 15, 10, and 3, T. 6 S., R. 4 E.; then west along the township line common to T. 5 S. and T. 6 S.; then north along the range line common to R. 4 E. and R. 3 E.; then west along the south boundaries of secs. 13, 14, 15, 16, 17, and 18, T. 5 S., R. 3 E.; then north along the range line common to R. 2 E. and R. 3 E.; then west along the township line common to T. 4 S. and T. 3 S. to the intersection with the southwest boundary of partial sec. 31, T. 3 S., R. 1 W.; then northwest along that line to the intersection with the range line common to R. 2 W. and R. 1 W.; then north to the intersection of said range line with the Riverside-San Bernardino County line;

San Bernardino County—that portion of San Bernardino County which lies west and south of a line described as follows: Beginning at the point where the San Bernardino-Riverside County boundary is intersected by the range line common to R. 3 E. and R. 2 E. and running east along said county boundary; then north along the range line common to R. 3 E. and R. 2 E.; then west along the township line common to T. 3 N. and T. 2 N. to the intersection of said township line with the San Bernardino-Los Angeles County boundary;

Los Angeles County—that portion of Los Angeles County which lies south and west of a line described as follows: Beginning at the point where the township line common to T. 3 N. and T. 2 N. intersects with the Los Angeles-San Bernardino County boundary and running west along said township line; then north along the range line common to R. 8 W. and R. 9 W.; then west along the township line common to T. 4 N. and T. 3 N.; then north along the range line common to R. 12 W. and R. 13 W. to the southeast corner of sec. 12, T. 5 N., R. 13 W.; then west along the south boundaries of secs. 12, 11, 10, 9, 8, and 7, T. 5 N., R. 13 W. to the boundary of the Angeles National Forest which is collinear with the range line common to R. 13 W. and R. 14

W.; then north and west along the Angeles National Forest boundary to the point of intersection with the township line common to T. 7 N. and T. 6 N. (point is at the northwest corner of sec. 4 in T. 6 N., R. 14 W.); then west along the township line common to T. 7 N. and T. 6 N.; then north along the range line common to R. 15 W. and R. 16 W. to the southeast corner of sec. 13, T. 7 N., R. 16 W.; then west along the south boundaries of secs. 13, 14, 15, 16, 17, and 18, T. 7 N., R. 16 W.; then north along the range line common to R. 16 W. and R. 17 W. to the north boundary of the Angeles National Forest (collinear with township line common to T. 8 N. and T. 7 N.); then west and north along the Angeles National Forest boundary to the point of intersection with the south boundary of the Rancho La Liebre Land Grant; then west and north along this land grant boundary to the point at which it intersects with the Los Angeles-Kern County boundary; then west along said county boundary to the northwest corner of Los Angeles County.

This action is proposed under the authority of sections 107(a) and 301(a) of the Clean Air Act, section 2, Public Law 90-148, 81 Stat. 490, 504, 42 U.S.C. 1857c-2(a), 1857g(a).

Dated: November 20, 1968.

WEARING APPAREL

Notice of Extension of Time for Filing Comments

On October 23, 1968, there was published in the FEDERAL REGISTER (33 F.R. 15662), a notice of finding that a new or amended flammability standard or other regulation may be needed for wearing apparel and institution of proceeding for the development of appropriate flammability standards or other regulations.

Interested persons were afforded 30 days from the date of publication within which to submit written comments or suggestions to the Assistant Secretary for Science and Technology relative to (1) the finding that a new or amended flammability standard or other regulation, including labeling, may be needed; and (2) the terms or substance of a new or amended flammability standard or other regulation, including labeling, that might be adopted in the event that a final finding is made by the Secretary of Commerce that such a standard or other regulation is needed to adequately protect the public against unreasonable risk of the occurrence of fire leading to death, injury, or significant property damage.

Following the publication of notice, a number of requests for an extension of the time for filing comment have been

received. As the Department of Commerce is concerned that it receive adequate and deliberative responses representing the considered views and recommendations of interested persons, the period of time for filing comments or suggestions in the instant proceeding is hereby extended until December 20, 1968.

Issued: November 21, 1968.

LOCATION AND DESIGN APPROVAL

Notice of Extension of Comment Period and Public Hearing

On October 21, 1968, the Federal Highway Administration published a notice of proposed rule making (33 F.R. 15663) requesting public comment on the addition of a new Part 3 to title 23 of the Code of Federal Regulations. The purpose of the proposed new part was to assure to the maximum extent possible that highway locations and designs reflect and are consistent with Federal, State, and local

goals and objectives. The rules, policies, and procedures that would be established by the proposed part are intended to afford full opportunity for effective public participation in the consideration of highway location and design proposals by State highway departments whose responsibility it is to make highway decisions, before submission to the Federal Highway Administration for approval. They would provide a medium for free and open discussion and are designed to encourage amicable resolution of controversial issues that may arise.

The notice requested that interested persons submit comments by the close of business on November 22, 1968. Upon consideration of requests for an extension of time for filing comments, the time for filing is hereby extended to the close of business on December 13, 1968.

In addition, based on a number of requests, the Administrator has determined that a public hearing should be held to give all interested persons a further opportunity to present their views on the proposed regulation. The hearing will open on December 16, 1968, beginning at 9 a.m., at the Department of Transportation Building, 800 Independence Avenue SW., Washington, D.C.

The hearing will be an informal one conducted by a representative of the Administrator. It will not be a judicial or evidentiary type of hearing so there will be no cross examination of persons presenting statements. A representative of the Administrator will make an opening statement presenting in brief a history of the proposed regulation. Interested

persons will then have an opportunity to present their initial oral statements. Their statements should focus on the issues raised by the notice and duplicate as little as possible written comments already made. After all initial statements have been completed those persons who wish to make a rebuttal statement will be given an opportunity to do so in the same order in which they made their initial statement. Additional procedures for the conduct of the hearing will be announced at the hearing.

Interested persons are invited to attend the hearing and present oral statements on matters set forth in the proposed regulation which will be made a part of the record of the hearing. Any person who wishes to make an oral statement should notify the Administrator by December 6, 1968, stating the amount of time required for his initial statement. Depending on the number of requests received, it may be necessary to limit the amount of time allocated to each interested person. Parties requesting time to present oral statements will be notified of the hearing schedule. All communications concerning this hearing should be addressed to Federal Highway Administrator, 400 Sixth Street SW., Washington, D.C. 20591. A transcript of the hearing will be made. Anyone may buy a copy of the transcript from the reporter.

Issued on November 21, 1968.

LOWELL K. BRIDWELL,
Federal Highway Administrator.

Notice of Classification of Public Lands for Multiple-Use Management

1. Classification of Public Lands for Multiple-Use Management A 922, published in *FEDERAL REGISTER*, vol. 32, No. 178, pages 13081-13083 (September 14, 1967) segregated the lands described therein from appropriation of a highway right-of-way under R.S. 2477 and from appropriation under other laws.

2. Maricopa County has demonstrated a need to establish a highway right-of-way for road realignment on the following described lands:

T. 5 S., R. 10 W., G&SR Mer.,
Sec. 21, the west 40 feet of the SW $\frac{1}{4}$ SW $\frac{1}{4}$;
Sec. 28, the west 40 feet of the N $\frac{1}{2}$ and the west 40 feet of the NW $\frac{1}{4}$ SW $\frac{1}{4}$;
Sec. 29, the east 40 feet of the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and the east 40 feet of the NE $\frac{1}{4}$ SE $\frac{1}{4}$.

3. The proposed road realignment will not detract from the purposes for which these lands were classified.

4. Therefore, the segregation from appropriation under R.S. 2477, imposed by classification identified in paragraph 1 hereof, is hereby removed from the lands described in paragraph 2 hereof.

FRED J. WEILER,
State Director.

Notice of Classification of Public Lands for Multiple-Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986; 43 U.S.C. 1411-18) and to the regulations in 43 CFR Parts 2410 and 2411, the public lands described below are hereby classified for multiple-use management. Publication of this notice has the effect of segregating the described land from sale under the Public Land Sale Act of September 19, 1964 (43 U.S.C. 1421-27); from private exchange (43 U.S.C. 315g(b)); from State exchange (43 U.S.C. 315g(c)); from State selection (43 U.S.C. 851, 852); from R.S. 2477 (43 U.S.C. 932); and from appropriation under the mining laws. By Notice of Classification A 702 published in the June 28, 1967, *FEDERAL REGISTER*,

these lands have previously been segregated from appropriation under the agricultural land laws (43 U.S.C. Parts 7 and 9 and 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171). As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The public lands involved contain a 25-mile-long segment of Paria Canyon between the Arizona-Utah State line and the Colorado River. This narrow red rock canyon gorge has scenic, recreation, archeological, and wilderness values which are receiving an increasing amount of public interest and use. These lands will be designated as the Paria Canyon Primitive Area and managed to protect the wilderness characteristics of the canyon.

3. The notice of proposed classification of these lands was published August 14, 1968, in F.R. 11550 and widely publicized. The public hearings on September 24, 1968, in Phoenix and on September 26, 1968, in Fredonia, Ariz., were well attended and many comments were received during the 60-day period. There has been widespread public endorsement of this proposal to keep these lands in public ownership for multiple-use management in a manner that will protect the outstanding scenic values of this area. Some concern was expressed that this multiple-use management classification would close these lands to grazing use. The multiple-use management classification and Primitive Area designation will not close these lands to grazing, or prevent the use of or access to range improvements or established waters within the area. Grazing will continue to be administered under the grazing regulations. A management plan for the recreational use of the area will be prepared with the aid and advice of all interested individuals and groups. The plan will coordinate the general public use with continued grazing use of the area. This classification is subject to valid, existing rights and it does not affect the rights of owners of unpatented mining claims located prior to August 14, 1968, to conduct mining operations on these claims.

The public record on this classification is available for inspection at the Land Office, Room 3204, Federal Building, 230 North First Avenue, Phoenix, Ariz., and at the Arizona Strip District Office, 196 East Tabernacle, St. George, Utah.

4. The public lands involved are described as follows:

Notice of Classification of Public Lands for Multiple-Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986, 43 U.S.C. 1411-18),

and to the regulations in 43 CFR 2410-2411, the public lands described below are hereby classified for multiple use management. Publication of this notice has the effect of segregating the described land from sale under the Public Land Sale Act of September 19, 1964 (43 U.S.C. 1421-27); from private exchange (43 U.S.C. 315g(b)); from State exchange (43 U.S.C. 315g(c)); from State selection (43 U.S.C. 851, 852); from R.S. 2477 (43 U.S.C. 932); and from appropriation under the mining laws. By notice of classification A 702 published in the June 28, 1967, FEDERAL REGISTER, these lands have previously been segregated from appropriation under the agricultural land laws (43 U.S.C. Parts 7 and 9 and 25 U.S.C. 334) and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171). As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269), as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The public lands involved lie in a scenic strip 30 miles long and from 2 to 4 miles in width that covers the face of the Vermillion Cliffs. This scenic strip extends from House Rock on the west to Navajo Bridge on the east and is bounded on the north by the rim of the Vermillion Cliffs and on the south by U.S. Highway 89A. These colorful cliffs, rising up to 1,800 feet above the highway are an outstanding scenic resource along a principal route of travel to the North Rim of the Grand Canyon. The lands will be designated as the Vermillion Cliffs Natural Area and managed to protect the scenic characteristics of the escarpment.

3. The notice of proposed classification of these lands was published August 14, 1968, in F.R. 11550 and 11551 and widely publicized. The public hearings on September 24, 1968, in Phoenix and on September 26, 1968, in Fredonia, Ariz., were well attended and many comments were received during the 60-day period. There has been widespread public endorsement of this proposal to keep these lands in public ownership for multiple-use management in a manner that will protect the outstanding scenic values of this area. Some concern was expressed that this multiple-use management classification would close these lands to grazing use. The multiple-use management classification and Natural Area designation will not close these lands to grazing, or prevent the use of or access to range improvements, private lands or established waters within the area. Grazing will continue to be administered under the grazing regulations. A management plan for the recreational use of the area will be prepared with the aid and advice of all interested individuals and groups. The plan will provide for interpretive displays and recreation developments and will coordinate the general public use with continued grazing use of the area. This classification is subject to valid, existing rights. It does not affect the rights of owners of unpatented mining claims located prior to August 14, 1968,

to conduct mining operations on these claims.

The following lands were listed in the Notice of Proposed Classification:

T. 39 N., R. 6 E.,
Sec. 28, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, and SW $\frac{1}{4}$ SE $\frac{1}{4}$;
Sec. 33, N $\frac{1}{2}$ N $\frac{1}{2}$ north of U.S. Highway 89A.

Since the surface rights on these lands, totalling approximately 360 acres, are in private ownership, they are not included in this notice of classification. The segregative effect of the notice of proposed classification is hereby terminated as to these lands.

The public record on this classification is available for inspection at the Land Office, Room 3204, Federal Building, 230 North First Avenue, Phoenix, Ariz., and at the Arizona Strip District Office, 196 East Tabernacle, St. George, Utah.

Notice of Classification of Public Lands for Multiple-Use Management

1. Pursuant to the Act of September 19, 1964 (78 Stat. 986, 43 U.S.C. 1411-18), and to the regulations in 43 CFR Parts 2410 and 2411, the public lands and resources described below are hereby classified for multiple-use management. Publication of this notice has the effect of segregating the public lands described in paragraph 4 from sale under the Public Land Sale Act of September 19, 1964 (43 U.S.C. 1421-27); from private exchange (43 U.S.C. 315g(b)); from State exchange (43 U.S.C. 315g(c)); from State selection (43 U.S.C. 851, 852); R.S. 2477 (43 U.S.C. 932); and from appropriation under the agricultural land laws (43 U.S.C. Parts 7 and 9, 25 U.S.C. 334); from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171); and from appropriation under the mining laws; and segregating the lands described in paragraph 5 from appropriation under the mining laws only. As used herein, "public lands" means any lands withdrawn or reserved by Executive Order No. 6910 of November 26, 1934, as amended, or within a grazing district established pursuant to the Act of June 28, 1934 (48 Stat. 1269) as amended, which are not otherwise withdrawn or reserved for a Federal use or purpose.

2. The lands involved cover a 10-mile-long segment of Aravaipa Canyon. The permanent stream, colorful rock formations, luxuriant vegetation, and varied and abundant wildlife create an environment in this deep canyon which is in sharp contrast to the surrounding desert terrain. Aravaipa Canyon has long been recognized as a unique and outstanding scenic area, and it is receiving increased public use. These lands will be designated as the Aravaipa Canyon Primitive Area and managed to protect the wilderness characteristics of the canyon.

3. The notice of proposed classification of these lands was published August 14, 1968, in F.R. 11551 and 11552, and was widely publicized. The public hearing on September 24, 1968, in Phoenix, Ariz., was well attended and many comments were received during the 60-day period. There has been widespread public endorsement of this proposal to keep these lands and resources in public ownership for multiple-use management. A management plan for the recreational use of the area will be prepared with the aid and advice of all interested individuals and groups. The plan will coordinate the recreation, grazing, and other public uses of the canyon area in a manner that will protect the public values. Grazing will continue to be administered under the grazing regulations.

The following lands were included in the Notice of Proposed Classification:

T. 6 S., R. 19 E.,
Sec. 20, N $\frac{1}{2}$ SE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$;
Sec. 21, SW $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$.

T. 7 S., R. 19 E.,
Sec. 5, SW $\frac{1}{4}$ NE $\frac{1}{4}$.

These lands, totaling 360 acres, are in three separate tracts disconnected from the large block of public lands in Aravaipa Canyon. Since these lands cannot be managed effectively in connection with the other Aravaipa Canyon lands, they are not included in this notice of classification. The segregative effect of the notice of proposed classification is hereby terminated as to the three tracts.

The public record on this classification is available for inspection at the Land Office, Room 3204, Federal Building, 230 North First Avenue, Phoenix, Ariz., and at the Safford District Office, 1707 Thatcher Boulevard, Safford, Ariz.

4. As provided in paragraph 1 above the public lands in the areas described below are segregated from sale, exchange, selection, and from appropriation under the agricultural and mining laws.

National Park Service

OLYMPIC NATIONAL PARK, WASH.

Notice of Intention To Negotiate Concession Contract

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Louis L. Perkins and/or Helen M. Perkins authorizing them to provide concession facilities and services for the public at the La Push Ocean Park, Olympic National Park, Wash., for a period of 5 years from January 1, 1968, through December 31, 1972.

The foregoing concessioners have performed their obligations under the prior contract to the satisfaction of the National Park Service and, therefore pursuant to the Act cited above, are entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after the publication date of this notice.

Interested parties should contact the Chief of Concessions Management, National Park Service, Washington, D.C.

20240, for information as to the requirements of the proposed contract.

Dated: November 18, 1968.

R. B. MOORE,
Assistant Director,
National Park Service.

This notice shall become effective November 22, 1968, when it shall supersede P.P.C. 640, effective May 19, 1967.

Under a supplemental regulation designated as 7 CFR 301.45-2b(8), stone and quarry products are exempt from the certification and permit requirements of this subpart when shipped from establishments which are approved by the Director. The Director has determined that the stone and quarry establishments listed above qualify for approval and accordingly, are approved for the purposes of said supplemental regulation.

This revision of the notice of stone and quarry establishments which are approved by the Director deletes 14 previously listed establishments and adds nine establishments to the list. With respect to the establishments added to the list of approved stone and quarry establishments, this revision relieves certain restrictions previously imposed and should be made effective promptly in order to be of maximum benefit to the persons subject to the restrictions that are being relieved.

Of the 14 establishments removed from the list, 11 are no longer operating and since they are no longer shipping regulated products, notice and other public procedure with respect to the deletion of the names of these establishments from the list would serve no useful purpose. However, the deletion of 3 operating establishments from such list imposes certain restrictions that are necessary to prevent the interstate spread of the gypsy moth and should be made effective promptly to accomplish this purpose in the public interest. Accordingly, it is found upon good cause under the ad-

¹ (D) — Dealer.

ministrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to this revision are unnecessary and contrary to the public interest, and good cause is found for making the revision effective less than 30 days after publication in the FEDERAL REGISTER.

DEPARTMENT OF COMMERCE

Patent Office

DISCLOSURE DOCUMENT PROGRAM

Request for Comments

The Patent Office proposes to accept and preserve for a limited period "Disclosure Documents" as evidence of conception of an invention as to the features disclosed therein. A Disclosure Document may be any paper which discloses an invention and is signed by the inventor and is forwarded to the Patent Office by either the inventor or the assignee. It is not a patent application, nor will its receipt date in the Patent Office become the effective filing date of any later-filed application. However, like patent applications, these documents will be kept in confidence by the Patent Office.

Although there are no restrictions as to its content and claims are unnecessary, the benefits afforded by the Disclosure Document will depend directly upon the adequacy of its disclosure. Therefore the description should include the manner and process of making and using the invention in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same. Inclusion of the best mode contemplated by the inventor of carrying out the invention is also recommended. When the nature of the invention admits, a drawing or sketch should be furnished. The matter of utility should be considered, particularly in chemical inventions.

A Disclosure Document will be destroyed 2 years after its receipt date unless it is referred to in a paper of record in a related patent application within said 2-year period. In a new patent application, the Disclosure Document may be referred to in the letter of transmittal. Disclosure Documents, if accepted, will not be returned for any reason. Unless it is desired to obtain the benefit of its receipt date, a Disclosure Document need not be referred to in the file of the patent application.

The Disclosure Document must be limited to written matter or drawings on paper or other thin flexible material having dimensions of 8 to 8½ by 10 to 13 inches. Each page should be numbered and have permanent indicia sufficiently dark to allow copying by ordinary reproducing equipment.

In addition, each Disclosure Document, when submitted, must include a fee of \$10, a stamped, self-addressed envelope and a separate paper, in duplicate, signed by the inventor stating that he is the inventor and requesting that the enclosed material be received for processing under the Disclosure Document Program. The papers will be stamped by the Office with an identifying number and receipt date, and the duplicate request returned in the self-addressed envelope.

The request may take the following form:

The undersigned, being the inventor of the disclosed invention, requests that the enclosed papers be accepted under the Disclosure Document Program, and that they be preserved for a period of 2 years.

All persons who desire to present their views, objections, recommendations, or suggestions in connection with the proposed program are invited to do so by forwarding the same to the Commissioner of Patents, Washington, D.C. 20231, on or before December 31, 1968. No hearing will be scheduled.

EDWARD J. BRENNER,
Commissioner of Patents.

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Restricted Articles and Inadmissible Passengers and Deportees

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of November 1968.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the traffic conferences of the International Air Transport Association (IATA), and adopted at the first meeting of the Passenger Traffic Procedures Committee

and at the 15th meeting of the Traffic Handling and Accountancy Working Group. The agreements have been assigned the above-designated CAB Agreement numbers.

The agreements (1) amend the procedural provisions of the resolution governing the transportation of inadmissible passengers and deportees, and (2) adopt as a resolution a Board-approved recommended practice governing restricted articles in passengers' baggage. The latter resolution enumerates articles which may not be carried in passengers' baggage, such as compressed gases, corrosives, explosives, flammable liquids, and solids, oxidizing materials, poisons, and radioactive materials. It also requires that carriers make such information available to the public by its inclusion in preflight documents, notice cards, or by other convenient means.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the following resolutions, incorporated in the agreement indicated, to be adverse to the public interest or in violation of the Act:

CAB agreement	IATA No.	Title	Application
20618, R-7..	140	Inadmissible passengers and deportees (amending).	World-wide.
20627, R-8..	308	Restricted articles in passengers' baggage.	World-wide.

Accordingly, it is ordered, That:

Agreements CAB 20618, R-7, and CAB 20627, R-8, are approved.

Any air carrier party to the agreements, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and 19 copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

TRANS WORLD AIRLINES, INC.

Order To Show Cause Regarding Certificate of Public Convenience and Necessity

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of November 1968

On October 10, 1968, Trans World Airlines, Inc. (TWA), filed an application requesting an amendment of restriction 34 of its certificate of public convenience and necessity for Route 2 to permit single-plane service through the San Jose Airport between San Francisco-San Jose and Los Angeles.¹ TWA contemporaneously filed a petition for an order to show cause.

In support of its application, TWA alleges, in pertinent part, that this restriction was imposed to protect Pacific Air Lines, Inc., a subsidized local service carrier which has evolved into Air West, Inc., through corporate merger; that Pacific Air Lines, Inc., was not serving the San Jose-Los Angeles market at the time of its merger, nor has Air West, Inc., provided any nonstop service in this market; that single-plane service to Los Angeles from the San Jose Airport would alleviate congestion at the San Francisco and Oakland airports; that in response to a petition filed by the city of

¹ This restriction was imposed with the redesignation of San Jose as a hyphenated point with San Francisco. Order E-25644, Sept. 7, 1967.

San Jose, the Board issued an order² directing all interested parties to show cause why, inter alia, the certificate of TWA should not be amended in the above-described manner; that since no objections were filed, the Board issued a finalization order,³ but in so doing, the Board deferred amendment of TWA's certificate because TWA had informed the Board that it had no immediate plans to institute San Jose-Los Angeles service and would not file an application; and that TWA has now reconsidered its decision and wishes to have the increased operating flexibility and potential support traffic which the unrestricted authority would provide.

There have been no answers filed in opposition to this application.

Upon consideration of the foregoing, we tentatively find and conclude that the public convenience and necessity require the amendment of restriction 34 of TWA's certificate of public convenience and necessity for Route 2 to permit single-plane service through the San Jose Airport between San Francisco-San Jose and Los Angeles.

In support of our ultimate conclusion, we tentatively find and conclude that the institution of single-plane service through the San Jose Airport from San Francisco-San Jose to Los Angeles will alleviate congestion at the San Francisco and Oakland airports. Furthermore, with the corporate merger of Pacific into Air West, we tentatively find that the reason for maintaining the restriction no longer obtains.

Interested persons will be given 20 days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to direct their objections, if any, to the specific market and to support such objections with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings stated herein and amending restriction 34 of TWA's certificate of public convenience and necessity for Route 2 to permit single-plane service through the San Jose Airport between San Francisco-San Jose, on the one hand, and Los Angeles, on the other hand.

2. Any interested persons having objection to the issuance of an order making final any of the proposed findings, conclusions, or the certificate amend-

ment set forth herein shall, within 20 days after service of a copy of this order, file with the Board and serve upon all persons made parties to this proceeding a statement of objections together with written testimony, statistical data, and other evidence relied upon to support the stated objections;⁴

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon the following persons who are hereby made parties to this proceeding: Mayor, city of San Francisco; Mayor, city of Los Angeles; Mayor, city of San Jose; Air West, Inc.; Trans World Airlines, Inc.; United Air Lines, Inc.; Western Air Lines, Inc.; and the Flying Tiger Line, Inc.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Agreement No. T-2210, between the members of the Pacific Maritime Association (PMA), is a cooperative working arrangement which permits the members to assess themselves, in amounts to be determined from time to time, in order to meet their obligations to pay employee fringe benefits under the ILWU-PMA Longshore Mechanization and Modernization Plan (Longshoremen's Plan) and the ILWU-PMA Walking Boss Mechanization and Modernization Plan (Walking Boss Plan). PMA is now making such assessments pursuant to Agreements Nos. T-2148 and T-2149, which were approved by the Commission on March 28, 1968, and set down for investigation in Docket No. 68-18. The Commission's approval of the agreements was made subject to such adjustments as may be required by any order issued as a result of the said investigation in Docket No. 68-18. The method of allocating assessments provided for in Agreement No. T-2210 between the members was determined by an impartial arbitrator and provides, in the case of the Walking Boss Plan, that assessments shall be determined by the number of revenue tons of cargo, other than bulk cargoes, handled by each member employing walking bosses and foremen. Tonnage is to be computed by weight, measurement or board feet in the same manner historically used to compute PMA membership dues prior to 1961. Assessments per revenue ton of cargo handled or (with respect to clerical labor) per man hour, shall be uniform between all participants in each plan; except that, in the case of the Longshoremen's Plan, (1) as to bulk cargo operations, assessments per revenue ton handled shall be one-seventh of the amount of assessments per revenue ton applicable to the handling of general cargo; (2) as to automobiles and trucks exclusive of truck trailers, assessments per revenue ton handled shall be one-fifth of the amount of assessments per revenue ton applicable to the handling of general cargo; (3) as to cargo in containers, assessments per revenue ton handled shall be seven-tenths of the amount of assessments per revenue ton applicable to the handling of general cargo; and (4) in cases of unusual hardship which involve a threat to maintenance of work opportunities or to either of said plans (such as coastwise lumber operations which shall be assessed at one-fifth of the amount of assessments per revenue ton applicable to the handling of general cargo), the PMA Board of Directors may, in its discretion, reduce the applicable tonnage or man hour assessments as to particular cargo-handling operations. Should Agreement No. T-2210 be approved by the Commission under section 15, Shipping Act, 1916, it will supersede Agreements Nos. T-2148 and T-2149; PMA will then move for discontinuance of the proceedings in

Docket No. 68-18 on the ground that the issues have been rendered moot.

Notice of agreement filed for approval by:

Mr. Edward L. David, Port Facilities Manager,
Port of San Francisco, Ferry Building, San
Francisco, California 94111.

Agreement No. T-2227 between the San Francisco Port Authority (Authority) and States Steamship Company (States) is a 10-year lease of certain property and improvements thereon, comprising a portion of the Army Street Terminal. As rental during the first year, States will pay all tariff charges with a minimum guaranteed payment of \$310,000. If the charges for this period exceed this amount, States will pay Authority 40 percent of the excess and retain 60 percent. In the second and subsequent years, if the minimum \$310,000 payment is exceeded, States will pay Authority 40 percent of the excess but may set off any excess of any prior year to the extent such excess has not already been set off in any prior year. Charges payable hereunder shall be, collected by States and remitted to Authority monthly on or before the 15th day of the following month. However, if on or after the 60th day following the date this lease goes into effect, any steamship company competing with States in the trans-Pacific trade using a terminal facility in the San Francisco Bay Area assesses no wharfage charge on cargo handled at said facility or assesses a lesser wharfage charge than that which

States is required to assess hereunder, then States shall not be required to assess or collect a wharfage charge greater than that assessed or collected by any such other steamship company, but the rental payments by States to Authority shall be computed on the basis of the charges appearing in Authority's tariff as the same may exist or may hereafter be amended in the same manner and to the same extent as if the charges were collected by States. The minimum guarantee, after the fifth year, may be adjusted to compensate for changes in terminal charges or cost of living indices in the San Francisco Bay Area. The premises are to be used exclusively as a marine terminal and are limited to vessels owned or operated by States and for vessels for which States will act as agent or as terminal operator. Authority retains the right of secondary use.

FEDERAL POWER COMMISSION

[Docket No. CP69-134]

CAPROCK PIPELINE CO.

Notice of Application

NOVEMBER 15, 1968.

Take notice that on November 1, 1968, Caprock Pipeline Co. (Applicant) Box 511, Amarillo, Tex. 79105, filed in Docket No. CP69-134 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continued operation of certain natural gas pipelines and appurtenant facilities, utilized for the sale for resale, exchange and transportation of natural gas, all as set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization for the following:

(1) To receive approximately 10,000 Mcf of natural gas from Pioneer Natural Gas Co. (Pioneer) near Felmec Field, Gaines County, Tex., and to transport said gas to a point in section 887, Block D, John H. Gibson Survey, Yoakum County, Tex., for redelivery to Pioneer pursuant to an agreement effective November 1, 1968.

(2) To deliver approximately 9,000 Mcf of gas to El Paso Natural Gas Co. at a point on the Dumas Pipeline in section 180, Block 9, BS&F Survey, Potter County, Tex., for redelivery to Applicant at several points in Texas designated in an agreement effective November 1, 1968.

(3) To sell and deliver to Pioneer 9,000 Mcf of gas at several points in Texas designated in an agreement effective November 1, 1968.

Applicant states that no additional facilities are required under this proposal.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before December 6, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own

review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Project No. 2690]

CITY OF SNOHOMISH, WASH.

Notice of Application for Preliminary Permit for Unconstructed Project

NOVEMBER 19, 1968.

Public notice is hereby given that application for preliminary permit has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by city of Snohomish, Washington (correspondence to: J. L. Coniff, Attorney at Law, Post Office Box 1306, Olympia, Wash.) for unconstructed Project No. 2690, to be known as Pilchuck River Project, to be located on Pilchuck River, a tributary of the Snohomish River, in county of Snohomish, Wash., near the cities of Snohomish and Everett, and affecting lands of the United States within the Snoqualmie National Forest.

The proposed project would consist of a two-stage development described as follows: Stage I—construction of a 50-foot high concrete arch dam and reservoir located about 17 river miles upstream from the city of Snohomish with a water treatment plant at the dam and a water supply conduit to the city of Snohomish; and Stage II—increasing the height of the dam to 150 feet with a powerhouse having an estimated installed capacity of 4,000 kilowatts, and appurtenant facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1969, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and available for public inspection.

[Docket No. CP69-137]

COMMERCIAL PIPELINE CO., INC.

Notice of Application

NOVEMBER 15, 1968.

Take notice that on November 5, 1968, Commercial Pipeline Co., Inc. (Applicant), Kaufman Building, Wichita, Kans.

67202, filed in Docket No. CP69-137 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the acquisition and operation of natural gas facilities as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to acquire the transmission facilities of Rich Hill-Hume Gas Co., Inc. (Rich Hill), a distribution company operating in the State of Missouri. The application states that the said facilities extend from the Missouri-Kansas State line to the town of Rich Hill in Bates County, Mo., and service the towns of Rich Hill and Hume as well as certain farm customers along the route of said facilities. The application also states that said facilities consist of approximately 4 miles of 6-inch steel pipe and 12.9 miles of 4-inch steel pipe. Applicant proposes to acquire all rights-of-way and easements on which the above-described facilities are located.

Applicant states that the proposed acquisition will provide better service to existing customers of Rich Hill and will result in a decrease in overhead and operating expenses attributable to the facilities which Applicant seeks to acquire.

As full consideration for the acquisition Applicant proposes to assume \$80,100 of Rich Hill's total outstanding indebtedness.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (§ 157.10) on or before December 9, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP69-141]

LONE STAR GAS CO.

Notice of Application

NOVEMBER 19, 1968.

Take notice that on November 12, 1968, Lone Star Gas Co. (Applicant), 301 South Harwood Street, Dallas, Tex. 75201, filed in Docket No. CP69-141 a budget-type application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(c) of the regulations under the Act, for a certificate of public convenience and necessity authorizing the construction and operation, during the calendar year 1969, of facilities for the transportation and sale of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authority to:

(1) Construct and operate facilities for direct sale of gas to industrial customers located in areas outside of the franchise area of any local distributor.

(2) Make miscellaneous rearrangements not resulting in any change of service rendered by means of the facilities involved, including changes in existing field operations or relocation of existing sales or transportation facilities when required by highway construction, dam construction or other similar reasons.

Applicant states that it will construct no more than about 20 projects for direct sales and about 15 miscellaneous rearrangement projects during the calendar year 1969 under the authority requested by the application.

Total cost of constructing the facilities proposed by Applicant is estimated at not more than \$200,000, with each single project limited to a maximum of \$25,000. Financing will be from cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before December 17, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

MANUFACTURERS LIGHT AND HEAT CO.

Notice of Motion To Amend Rate Settlement Order and Agreement

NOVEMBER 18, 1968.

Notice is hereby given that The Manufacturers Light and Heat Co. (Manufacturers) on November 8, 1968, filed a motion to amend the Commission's order issued in the above proceeding on October 8, 1968, and to effectuate a modification of the settlement agreement approved by that order.

One of the provisions of the settlement agreement requires Manufacturers to reduce its settlement rates to reflect future gas pipeline supplier rate reductions in the level of the rates effective at the time of settlement. The modification of the settlement agreement sought by the motion would allow Manufacturers to adjust the settlement rates to reflect gas pipeline supplier rate increases over and above the supplier rates included in the settlement cost of service. As modified in this manner, the agreement would allow Manufacturers to reflect both decreases and increases in supplier rates in accordance with the procedures contained in the approved agreement.

Manufacturers states that one of its principal pipeline supplies has filed a proposed increase in its rates and that other suppliers may also be expected to file rate increases. The granting of the motion, Manufacturers urges, is critical both to the company and to its customers for two basic reasons: (1) The avoidance of successive, pyramided formal rate proceedings, and (2) the assurance of Manufacturers' ability to finance construction required to meet expanding customer needs.

Protests, objections or comments may be filed with the Federal Power Commission, Washington, D.C. 20426, pursuant to the Commission's rules of practice and procedure, on or before November 29, 1968.

MILLARD DECK OIL CO.

Notice of Application for "Small Producer" Certificate

NOVEMBER 19, 1968.

Take notice that on October 25, 1968, Millard Deck Oil Co., Post Office Box 409, Eunice, N. Mex. 88231, filed an application pursuant to section 7(c) of the

Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce from the Permian Basin area of Texas and New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 10, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission providing no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificate is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

NIAGARA MOHAWK POWER CORP.

Notice of Application

NOVEMBER 15, 1968.

Take notice that on October 16, 1968, Niagara Mohawk Power Corp. (Applicant) incorporated under the laws of the State of New York with its principal place of business in Syracuse, N.Y., filed an application in Docket No. IT-6087 for a supplemental order pursuant to section 202(e) of the Federal Power Act modifying Applicant's current authorization to transmit electric energy from the United States to Canada.

By Commission order issued November 24, 1964, in Docket No. IT-6078 Applicant was authorized to transmit electric energy from the United States to Canada in an amount not in excess of 750,000 kw.-hr. per annum and at a rate not to exceed 200 kw. for delivery to The Shawinigan Water and Power Co.

Applicant now requests that the authorization granted by Commission order issued November 24, 1964, in Docket No. IT-6078 referred to above be modified so as to authorize Applicant to transmit electric energy to Canada in an amount not to exceed 1,750,000 kw.-hr. annually

at a rate not to exceed 500 kw. for delivery to Hydro-Quebec Electric Commission formally The Shawinigan Water and Power Co.

Any person desiring to be heard or to make any protest with reference to the application should on or before December 10, 1968, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). PACIFIC GAS TRANSMISSION CO.

Notice of Petition To Amend

NOVEMBER 19, 1968.

Take notice that on November 15, 1968, Pacific Gas Transmission Co. (P.G.T.), 245 Market Street, San Francisco, Calif. 94106, filed in Pacific Gas Transmission Co., et al., Docket No. CP67-187 et al., a petition to amend the order issued in that consolidated proceeding on October 30, 1968, to authorize it to install larger gas turbine-driven centrifugal compressor units than had been proposed in its application in Docket No. CP67-187.

Specifically, the following changes are requested:

Compressor station	Originally proposed horsepower	Proposed amended horsepower
3-----	9,000-----	12,100.
6-----	9,100-----	12,500.
90-----	None proposed-----	12,500.
14-----	8,000 (2 units)-----	12,100 (1 unit).
1-----	8,000-----	12,500.

P.G.T. states that the larger turbines have been offered to it at favorable prices and that both the purchase cost and estimated annual cost of these units favor their selection over the smaller turbines originally proposed. P.G.T. alleges that the larger size does not affect the design capabilities of the P.G.T. pipeline, except that it would provide better backup periods when an upstream turbine is out of service. P.G.T. also claims that the changes will not increase the total cost of its portion of the proposed second expansion of the Alberta-California project authorized in the consolidated proceedings.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before December 12, 1968.

TEXAS GAS TRANSMISSION CORP.**Notice of Application**

NOVEMBER 18, 1968.

Take notice that on November 8, 1968, Texas Gas Transmission Corp. (Applicant), 3800 Frederica Street, Owensboro, Ky. 42301, filed in Docket No. CP69-139 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the sale and delivery of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authority to construct and operate the following facilities:

(1) Approximately 8.04 miles of 36-inch loop pipeline in Louisiana, Arkansas, Mississippi, and Tennessee;

(2) Approximately 32 miles of 10-inch pipeline in Kentucky; and

(3) One new sales meter station in Kentucky consisting of two 8-inch office meter runs with regulators and related instrumentation.

Additionally, Applicant seeks authority to sell to West Virginia Pulp and Paper Co. (Westvaco), near Wickliffe, Ky., 16,000 Mcf per day on a firm basis and 6,000 Mcf per day on an interruptible basis. Applicant proposes to commence such service on November 1, 1969.

Applicant states that the proposed service is necessary to provide the total fuel and natural gas process requirements necessary to manufacture paper and paper products at Westvaco's proposed Wickliffe, Ky. plant.

Total estimated cost of constructing the proposed facilities is \$3,333,000.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before December 13, 1968.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

FOREIGN-TRADE ZONES BOARD

[Order 77]

NEW JERSEY FOREIGN TRADE ZONE**Resolution Approving Application and Order Authorizing Issuance of Grant for Foreign-Trade Zone at Bayonne, N.J.**

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934 (48 Stat. 998-1003; 19 U.S.C. 81a-81u), as amended, the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

Upon examination, the application from the New Jersey Foreign Trade Zone, a private corporation of the State of New Jersey, for the privilege of establishing, operating, and maintaining a foreign-trade zone at Bayonne, N.J., is found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations issued thereunder. Now, therefore, said application for a grant is approved; and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the New Jersey Foreign Trade Zone, a grant permitting the establishment, operation, and maintenance of a foreign-trade zone at Bayonne, N.J., in conformance with the application on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of this Board. This grant shall

¹ Filed as part of the original document F.R. Doc. 68-14022 appearing in the issue for Friday, November 22, 1968. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Richmond.

be issued subject to settlement locally by the District Director of Customs and the District Engineer with the applicant regarding their respective requirements for the protection of the revenue of the United States and the installation of physical facilities of the zone within a reasonable time after issuance of the grant.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE AT BAYONNE, N.J.

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes" (48 Stat. 998-1003; 19 U.S.C. 81a-81u), as amended, hereinafter referred to as "the Act", the Foreign-Trade Zones Board, hereinafter referred to as "the Board", is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, New Jersey Foreign Trade Zone, a private corporation, hereinafter referred to as "the Grantee", has made application in due and proper form to the Board for the establishment, operation, and maintenance of a foreign-trade zone at Bayonne, N.J.;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found the proposed plans and location are suitable for the accomplishment of the purposes of a foreign-trade zone under the Act and that the facilities and appurtenances which in said application it is proposed to provide are sufficient;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 11, at the specific location mentioned above and more particularly described on the map accompanying said application, marked as Exhibit No. 10, said grant being subject to the provisions, conditions, and restrictions of the Act and of all rules and regulations made thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to-wit:

The Grantee shall make no deviation from the maps, plans, specifications, drawings, and blueprints accompanying the said application and marked as Exhibits Nos. 1 to 13, inclusive, before or after completion of the structures or work involved, unless such deviation has previously been submitted to and has received the approval of the Board.

The work of construction under this grant shall commence immediately following the date of the grant. Said work shall be diligently prosecuted to completion and the work of construction shall be completed and operation of the zone shall be commenced by the Grantee within a reasonable time from the date

of issuance of the grant. The Grantee shall notify the U.S. District Engineer in whose district the zone is located of the date upon which work will begin and as far in advance thereof as the District Engineer may reasonably specify, and shall notify him promptly in writing of any suspension of construction for a period of more than one week, and of its resumption and completion.

The Grantee shall fully comply with all applicable provisions of the laws relating to the protection and preservation of the navigable waters of the United States, and shall secure legally required authorization and approval for work in navigable waters of the United States. The grant herein made shall not be construed as conveying such approval.

The Grantee shall allow officers and employees of the United States of America free and unrestricted access to and throughout said zone in the performance of their official duties.

This grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States of America be liable therefor.

This grant is issued subject to settlement locally by the District Director of Customs and the District Engineer with the applicant regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of physical facilities of the zone within a reasonable time after issuance of the grant.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, C. R. Smith, at Washington, D.C., this 20th day of November 1968, pursuant to order of the Board.

FOREIGN-TRADE ZONES BOARD,

C. R. SMITH,
Chairman and Executive Officer.

CERTIFICATE BY EXECUTIVE SECRETARY

I, Richard E. Hull, Acting Executive Secretary of the Foreign-Trade Zones Board, do hereby certify that the following is a true extract of the Resolution adopted by the Foreign-Trade Zones Board in a Memorandum dated November 20, 1968.

Upon examination, the application from the New Jersey Foreign Trade Zone, a private corporation of the State of New Jersey, for the privilege of establishing, operating, and maintaining a foreign-trade zone at Bayonne, N.J., is found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations issued thereunder. Now, therefore, said application for a grant is approved; and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the New Jersey Foreign Trade Zone, a grant permitting the

establishment, operation, and maintenance of a foreign-trade zone at Bayonne, N.J., in conformance with the application on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of this Board. This grant shall be issued subject to settlement locally by the District Director of Customs and the District Engineer with the applicant regarding their respective requirements for the protection of the revenue of the United States and the installation of physical facilities of the zone within a reasonable time after issuance of the grant.

Witness my hand and the seal of the Foreign-Trade Zones Board this 20th day of November 1968.

[Order 78]

BOARD OF COMMISSIONERS OF PORT OF NEW ORLEANS

Resolution Approving Application and Order Authorizing Issuance of Grant for Foreign-Trade Subzone at New Orleans, La.

Proceedings of the Foreign-Trade Zone Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U.S.C. 81a-81u) and the Foreign-Trade Zones Board Regulations (15 CFR 400.304), the Foreign-Trade Zones Board has adopted the following resolution and order:

The Board having considered the matter hereby orders:

Upon examination, the application of the Board of Commissioners of the Port of New Orleans, New Orleans, La., for the privilege of establishing, operating, and maintaining a foreign-trade subzone at New Orleans, La., at which the Equitable-Higgins Shipyards, Inc., will store foreign and domestic materials and manufacture steel vessels has been found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations made thereunder. The Board has further found that the existing foreign-trade zone at New Orleans will not serve adequately the convenience of commerce with respect to the proposed purposes of such subzone.

Now, therefore, said application for a grant is approved; and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the Board of Commissioners of the Port of New Orleans, a grant permitting the establishment, operation, and maintenance of a foreign-trade subzone at New Orleans, La., in compliance with the application on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of this Board. This grant shall be issued subject to settlement locally by the District Director of Customs and the District Engineer with the applicant regarding their respective requirements for the protection of the revenue of the United States and the installation of physical facilities of the subzone within a reasonable time after issuance of the grant.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE SUBZONE AT NEW ORLEANS, LA.

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes" (48 Stat. 998-1003; 19 U.S.C. 81a-81u), as amended, hereinafter referred to as "the Act", the Foreign-Trade Zones Board, hereinafter referred to as "the Board", is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Foreign-Trade Zones Board Regulations provide (15 CFR 400.304) that the establishment of a foreign-trade subzone in an area separate from an existing zone, for one or more of the specialized purposes of storing, manipulating, manufacturing, or exhibiting goods may be authorized if the Board finds that existing or authorized zones will not serve adequately the convenience of commerce with respect to the proposed purposes;

Whereas, the Board of Commissioners of the Port of New Orleans, a public corporation and an agency of the State of Louisiana, as Grantee of Foreign-Trade Zone No. 2 at New Orleans, hereinafter referred to as "the Grantee" has made application in due and proper form to the Board for the establishment, operation, and maintenance of a foreign-trade subzone located on the west bank of the Inner Harbor Navigation Canal in the city of New Orleans, La. and which subzone is to be operated by the Equitable-Higgins Shipyards, Inc., a private corporation organized under the laws of the State of Louisiana, where foreign and domestic materials will be stored and where steel vessels will be manufactured;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard;

Whereas, the Board has found that the existing Foreign-Trade Zone No. 2 at New Orleans will not serve adequately the convenience of commerce with respect to the proposed purpose of such a subzone; and

Whereas, the Board has found that the proposed plans and location are suitable for the establishment and operation of the subzone, and that the facilities described in the application with adjustments recommended by the District Director of Customs and the Army District Engineer, as hereinafter referred to, are sufficient;

Now, therefore, the Board hereby further grants to the Board of Commissioners of the Port of New Orleans, Grantee, the privilege of establishing, operating, and maintaining a foreign-trade subzone, for the aforementioned purpose, officially designated as Foreign-Trade Subzone 2-B on the west bank of

the Inner Harbor Navigation Canal, New Orleans, La., and more specifically described on the map accompanying the application, marked Exhibit No. 10, said grant being subject to the provisions, conditions, and restrictions of the Act and of all rules and regulations made thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to wit:

The Grantee shall make no deviation from the maps, plans, specifications, drawings, and blueprints accompanying the said application, and marked Exhibits Nos. 1 to 13 inclusive, before or after completion of the structures or work involved, unless modification of such maps, plans, specifications, drawings, and blueprints has previously been submitted to and has received the approval of the Board.

The work of any construction under this grant shall commence immediately following the date of the grant; said work shall be diligently prosecuted to completion, and the work of construction shall be completed and operation of the subzone shall be commenced by the Grantee within a reasonable time from the date of issuance of this Subzone Grant. The Grantee shall notify the U.S. District Engineer in whose District the subzone is located of the date upon which work will begin and as far in advance thereof as the District Engineer may reasonably specify, and shall notify him promptly in writing of any suspension of construction for a period of more than 1 week, and of its resumption and completion.

The Grantee shall, to the extent here applicable, fully comply with the provisions of the laws for the protection and preservation of the navigable waters of the United States, and shall secure the authorization and approvals of work in navigable waters of the United States required by such laws. The Grant herein shall not be construed as conveying such approvals.

The Grantee shall allow officers and employees of the United States of America free and unrestricted access in, to, and throughout said subzone in the performance of their official duties.

The Grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said subzone, and in no event shall the United States of America be liable therefor.

This grant is issued subject to settlement locally by the District Director of Customs and the District Engineer with the applicant regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of physical facilities of the subzone within a reasonable time after issuance of the grant.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, C. R. Smith, at Washington, D.C., this

19th day of November 1968, pursuant to order of the Board.

FOREIGN-TRADE ZONES
BOARD,

RICHARD E. HULL,
Acting Executive Secretary.

CERTIFICATE OF EXECUTIVE SECRETARY

I, Richard E. Hull, Acting Executive Secretary of the Foreign-Trade Zones Board, do hereby certify that the following is a true extract of the Resolution adopted by the Foreign-Trade Zones Board in a Memorandum dated November 19, 1968.

Upon examination, the application of the Board of Commissioners of the Port of New Orleans, New Orleans, La., for the privilege of establishing, operating, and maintaining a foreign-trade subzone at New Orleans, La., at which the Equitable-Higgins Shipyards, Inc., will store foreign and domestic materials and manufacture steel vessels has been found to be in proper order and in compliance with the Foreign-Trade Zones Act, as amended, and the rules and regulations made thereunder. The Board has further found that the existing foreign-trade zone at New Orleans will not serve adequately the convenience of commerce with respect to the proposed purposes of such subzone.

Now, therefore, said application for a grant is approved; and the Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized and directed to sign and issue in favor of the Board of Commissioners of the Port of New Orleans, a grant permitting the establishment, operation, and maintenance of a foreign-trade subzone at New Orleans, La., in compliance with the application on file with the Foreign-Trade Zones Board. It is further ordered that a copy of this grant be made a part of the official records of this Board. This grant shall be issued subject to settlement locally by the District Director of Customs and the District Engineer with the applicant regarding their respective requirements for the protection of the revenue of the United States and the installation of physical facilities of the subzone within a reasonable time after issuance of the grant.

Witness my hand and the seal of the Foreign-Trade Zones Board this 19th day of November 1968, at Washington, D.C.

[Public Law 90-146; 81 Stat. 466]

HOUSEHOLD PRODUCTS PRESENTING HEALTH AND SAFETY RISK

Notice of Hearing

Notice is hereby given that pursuant to section 3(a) of Public Law 90-146 the National Commission on Product Safety

will hold public hearings at 9:30 a.m., on December 17, 18, and 19, 1968, at the John F. Kennedy Federal Building, Boston, Mass. 02203. The hearings will deal with the impact of common law and statutory liability of manufacturers, distributors and retailers, on the safety of household products, including:

(i) Individual case studies of the effect of civil liability on design and manufacturing safety.

(ii) Adequacy of compensation of those injured; timeliness of civil remedy; statute of limitations problems; statutory ceilings on recovery; availability of counsel; awareness of remedy by persons injured; availability of technical experts in civil actions.

(iii) Uniformity of common law remedies; scope of manufacturers' distributors', and retailers' liability; effect of emerging doctrines of strict liability on manufacturers, distributors, retailers, and on consumers; potential liability of the manufacturer of a component part; legal responsibility of testing laboratories, standards-setting organizations and/or standards committees.

(iv) Efforts of individual companies to cure defects in design or manufacturing and prevent injury and avoid liability, including recall from the market and from homes; effect of proof of compliance by the manufacturer with mandatory or voluntary standards; influence of criminal statutes on manufacturers' conduct; ramifications of imposing punitive damages.

(v) Safety efforts and data compilation by insurance companies; effect of product liability insurance.

(vi) Effect of product warranties on liability and product safety; effect of the Uniform Commercial Code on privity requirements; significance of labels and warnings; effect of disclaimers; need for notice to manufacturer or reliance by user.

Interested persons are invited to attend and participate by the submission of written statements. Such statements should be furnished to the Commission at its office, 1016 16th Street NW., Washington, D.C. 20036, not later than December 9, 1968. Such statements will be made a part of the record of the hearings and will be available for inspection by the public.

Interested persons desiring to offer oral testimony at these hearings should advise the Commission and file written statements setting forth the substance of their proposed testimony by December 9, 1968. The Commission will attempt to grant such requests to the extent time permits.

Persons desiring to furnish oral testimony or to submit statements at subsequent Commission hearings are invited to so advise the Commission in writing.

Dated: November 20, 1968.

LOUISIANA POWER & LIGHT CO.

Notice of Proposed Transfer of a Portion of Earned Surplus to Capital Stock Account

NOVEMBER 19, 1968.

Notice is hereby given that Louisiana Power & Light Co. ("Louisiana"), 142 Delaronde Street, New Orleans, La.

70114, a public-utility subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Louisiana proposes to transfer from its earned surplus account to its common capital stock account an aggregate of \$3,842,000, which is equivalent to 25 cents per share on its outstanding no par value common stock, all of which is held by Middle South. The common capital stock account will thereby be increased to \$96,050,000. At September 30, 1968, Louisiana's earned surplus amounted to \$28,326,113. During the 12 months then ended, dividends charged to its earned surplus account aggregated \$11,862,340, consisting of \$2,233,800 on Louisiana's outstanding preferred stock (all publicly held) and \$9,628,540 on its outstanding common stock.

The declaration states that no State regulatory body or agency and no Federal agency or commission, other than this Commission, has jurisdiction over the proposed transaction and that no fees, commissions, or expenses are to be paid in connection with the proposed transaction.

Notice is further given that any interested person may, not later than December 11, 1968, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

TARIFF COMMISSION

[332-59]

PROBABLE EFFECTS OF NATIONAL AND REGIONAL AGRICULTURAL PROGRAMS ON U.S. FOREIGN TRADE IN AGRICULTURAL PRODUCTS**Notice of Study**

Notice is hereby given that the U.S. Tariff Commission, acting on its own motion under section 332 of the Tariff Act of 1930 (19 U.S.C. 1332), has initiated a study of the effects on U.S. foreign trade in agricultural products of national and regional agricultural measures affecting international trade in agricultural products. The report of the Commission will include an examination of those measures of the United States and

of its principal trading partners that affect the flow of agricultural products in international trade, and an analysis of the impact of such programs on the agricultural exports and imports of the United States.

The methods employed by the Commission in obtaining information pertinent to the study include all those specified in § 201.9 of the Commission's rules of practice and procedure. This rule states that the Commission obtains pertinent information from its own files, from other agencies of the Government, through questionnaires and correspondence, through fieldwork by members of the Commission's staff, and from testimony and other evidence which may be presented at public hearings. Due notice will be given of any hearing which may later be scheduled.

The Commission anticipates that, as provided for in section 334 of the Tariff Act of 1930, other agencies, including the Office of the Special Representative for Trade Negotiations, the Departments of State, Treasury, Agriculture, Labor, Commerce, and Interior, will cooperate in furnishing information and assistance to the Tariff Commission in this study.

Any correspondence relating to the study should be addressed to the Secretary, U.S. Tariff Commission, Washington, D.C. 20436.

PROBABLE EFFECTS OF TARIFF PREFERENCES FOR LESS DEVELOPED COUNTRIES**Notice of Study**

Notice is hereby given that the U.S. Tariff Commission, acting on its own motion under section 332 of the Tariff Act of 1930 (19 U.S.C. 1332), has initiated a study of the probable effects on U.S. trade of a system of preferential tariff reductions applicable to the products of less-developed countries. The report of the Commission will include, but not be limited to, a brief history of tariff preferences, an examination of existing preferential arrangements and possible new generalized preferential tariff reductions, and an analysis of the probable impact of such tariff preferences on U.S. imports and exports of the principal products which may be affected.

The methods employed by the Commission in obtaining information pertinent to the study include all those specified in § 201.9 of the Commission's rules of practice and procedure. This rule states that the Commission obtains pertinent information from its own files, from other agencies of the Government, through questionnaires and correspondence, through fieldwork by members of

the Commission's staff, and from testimony and other evidence which may be presented at public hearings. Due notice will be given of any hearing which may later be scheduled.

[NOTICE 1238]

MOTOR CARRIER APPLICATION

INTERSTATE COMMERCE COMMISSION

[Notice 1238]

MOTOR CARRIER APPLICATION

NOVEMBER 15, 1968.

No. MC-66562 (Sub-No. 2314), filed May 29, 1968, as clarified. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York, N.Y. 10017. Applicant's representatives: John C. Ashton and William H. Marx (same address as applicant). The following publication sets forth the scope of the application as filed and clarified by applicant.

Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities*, moving in express service, between the points and in the manner indicated below.

The stated purpose of this application is to permit applicant to restructure its nationwide operations into a so-called "Hub" concept, under which operations would be centered at 24 Hub cities named in the application. The motor-carrier routes implementing this concept, for which application is made, are set forth in two parts: A network of routes between certain of the Hub cities (the Primary, or Hub-to-Hub system); and a network of separate routes radiating from each of the 24 Hub cities over which service would be performed (the Secondary, or Hub-to-Satellite system). Only such intermediate or off-route points as are named would be served by applicant.

Applicant presently holds authority to perform service over certain of the routes or portions thereof set forth in the application, which, in the main, are subject to specified restrictions. This presently held authority is indicated by underlining and is identified by appropriate sub-numbers of applicant's certificates in which such authority is contained. Any restrictions imposed in such certificates are set forth in Appendix A, and are appropriately identified. In those instances in which presently held authority is restricted, authority is sought by the instant application to conduct unrestricted express operations over these routes.

Appendix B sets forth by States each point to or from which authority is sought, and the points within the presently established REA terminal areas thereat presently receiving collection and delivery service, appropriately referenced to the route or routes involved in each instance. Applicant states that, by such publication, it is not seeking authority to perform pickup and delivery service within REA terminal areas, but, as information, advises that at each point sought to be served, as shown in Appendix B, the points named therein receive pickup and delivery service under tariffs presently filed with the Commission. Areas described in applicant's collection and delivery tariffs on file with

the Commission by metes and bounds are not set forth in Appendix B and applicant also holds itself out to perform collection and delivery service within such areas. Terminal area collection and delivery services set forth in applicant's appropriate tariff publications are subject to change by subsequent tariff filings.

Applicant states that no duplicating authority is sought.

Note: Applicant requests hearings be held at Washington, D.C., and should additional hearing sites be deemed necessary, at New York, N.Y., Atlanta, Ga., Chicago, Ill., Kansas City, Mo., and San Francisco, Calif.

This application is governed by Special Rule 247¹ of the Commission's General Rules of Practice (49 CFR 1100.247, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. In addition to the foregoing requirements with respect to filing protests herein, each protest shall indicate specifically the portion or portions of such application to which the protest is directed, identifying such portions in accordance with the route numbering system set forth in the application. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representatives. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's Rules of Practice further provides that applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication,

¹ Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

By the Commission.
